

## BUILDING INTELLIGENCE INTO CONNECTED MEDICAL EQUIPMENT

Our analytics solutions framework spans across data science, domain expertise, and data engineering

## Predictive analytics and artificial intelligence (AI) solutions for connected healthcare

We build intelligence into medical equipment so that they can take care of you—not the other way around.

### Cost-effective Innovation

Our experience with leading global enterprises, combined with R&D services from our advanced analytics lab enables us to offer innovative and customized solutions to help your business attain sustainable growth.

### Cyient Insights

- Make medical equipment intelligent
- Predict equipment failures
- Proactive monitoring of process and systems
- Improve utilization
- Enhance customer experience
- Maintain equipment at peak performance
- Use intelligence to identify new revenue opportunities
