

BYRON BAY TEA CO

Cafe / Restaurant Ordering Options

As well as herbal teas we offer a great range of core teas such as English Breakfast, Earl Grey, Chai, Green teas and tea latte powders. We offer all our teas in loose tea form and most now in biodegradable pyramid teabags where there is no compromise on quality or flavour- it is just the same loose tea blend in a bag.

The range has been designed for customers to purchase the LARGE TIN in the initial purchase and then the REFILL BAG for subsequent orders.

For a cafe/restaurant we recommend the following as a standard offering-:

English Breakfast

Earl Grey

Ginger Zing

Green

Spice Dream

or

Chai

Chamomile

or

Calming

Peppermint

or

Digest

There are two options for Chai- firstly, our traditional loose leaf chai that requires 3-4 minutes brewing time and best served in a teapot, and secondly, Spice Dream- a chai latte powder that is a quick brew option more well-suited for a fast-paced take away cafe.

If you would like to create a unique and interesting tea menu you might like to also consider some of the oriental teas (like Oolong or White) or our healthy and organic herbal teas such as Detox, Glow, Tummy Tone, Immunity, Dandylicious, Fortify and Energy.

For a cafe/restaurant with table service we recommend stocking the loose leaf teas and serving from a teapot. If you do the occasional take away tea you might like to stock our disposable teabags to make your own teabag by simply popping a teaspoon of tea into this and folding over. For a cafe doing take away only we would recommend stocking our biodegradable pyramid teabags.
