

# BYRON BAY TEA <sup>CO</sup>

## Hotels / Accommodation Ordering Options

For an in-room amenity we recommend our teabag sachets. Our teabags are made from a biodegradable corn starch material and are plastic-free, making them better for the environment and our health. They are also pyramid in shape which means that we can use the same high-grade, premium teas in a bag because it is a far superior style than the conventional teabag that enables an excellent infusion. Each teabag is stylishly packaged in our sachets creating a stunning presentation for any hotel room.

We recommend the following tea types for hotel rooms-:

**English Breakfast**

**Green**

**Calming**

A Chamomile blend with Vanilla bean and Cinnamon

**Digest**

A Peppermint blend with Chamomile, Lemon balm and Fennel
