OUR Issuer Services

Leading corporate issuers rely on Mediant's expertise for true end-to-end shareholder communications solutions. Our full-service project management teams ensure that issuer clients receive the industry's most reliable and scalable support for complex proxy events.

Issuers are more focused on shareholder engagement than ever before. From QR codes to mobile voting, issuers are exploring new ways to reach different shareholder audiences. Even while innovating, issuers still need to ensure shareholder communications are achieved accurately, clearly, and on a timely basis.

Mediant's cutting-edge proxy distribution and processing services deliver shareholder engagement, complex tabulation, and expert project management.

WHY MEDIANT?

DEDICATED PROXY EXPERTS

- Mediant is an extension of your corporate annual meeting team
- Complete project management and consultative approach
- Expertise working with leading issuers

END-TO-END PROXY SUPPORT

- Advisory, distribution, mailing, and tabulation support
- Tailored to your branding and timeline
- Real-time tabulation reporting system available 24/7

SHAREHOLDER ENGAGEMENT

- Custom-branded document hosting, online voting sites, and e-blasts
- Compatible on multiple devices – PCs, tablets, and smartphones

A decorative line graphic consisting of two parallel, jagged lines in blue and yellow, with small circles at the ends and midpoints, positioned above the main heading.

INNOVATION. SCALE. FLEXIBILITY.

Hundreds of leading issuers rely on Mediant to meet their proxy needs. Our expert proxy teams work with you to ensure that from start to finish, the overall proxy process is seamless and transparent. By combining our extensive proxy experience with robust technology, we transform issuers' proxy management and deliver new levels of shareholder engagement and operational efficiency.

PRINT PROXY DISTRIBUTION AND PROCESSING

- Custom-branded print distribution and processing
- Paper ballots include e-consent, telephone, and internet voting instructions

ELECTRONIC PROXY DISTRIBUTION AND PROCESSING

- Our electronic proxy distribution and processing systems allow you to offer shareholders the best user experience available in the industry
- Customized branding, text, images, and links to video content to create a fully compliant process

NOTICE AND ACCESS

- Turn-key Notice and Access services make managing shareholder communications simple and cost effective
- Enhanced document hosting and electronic voting to hard-copy fulfillment
- Our print facilities accommodate pick-and-pack mailings to meet rolling three-day print material request fulfillment deadlines

ENHANCED DOCUMENT HOSTING

- Custom online document hosting with a wide range of functionalities, including links to electronic ballots so shareholders can vote after viewing meeting materials
- Fulfill regulatory requirements, including “no-shareholder-tracking” and the ability to easily search and navigate documents

REAL-TIME, ONLINE REPORTING

- Real-time online reporting available 24 hours a day, seven days a week

E-CONSENT SERVICES

- Ability to migrate accounts online
- Gather and maintain e-consent data with daily e-consent reporting

TABULATION AND INSPECTOR-OF-ELECTION SERVICES

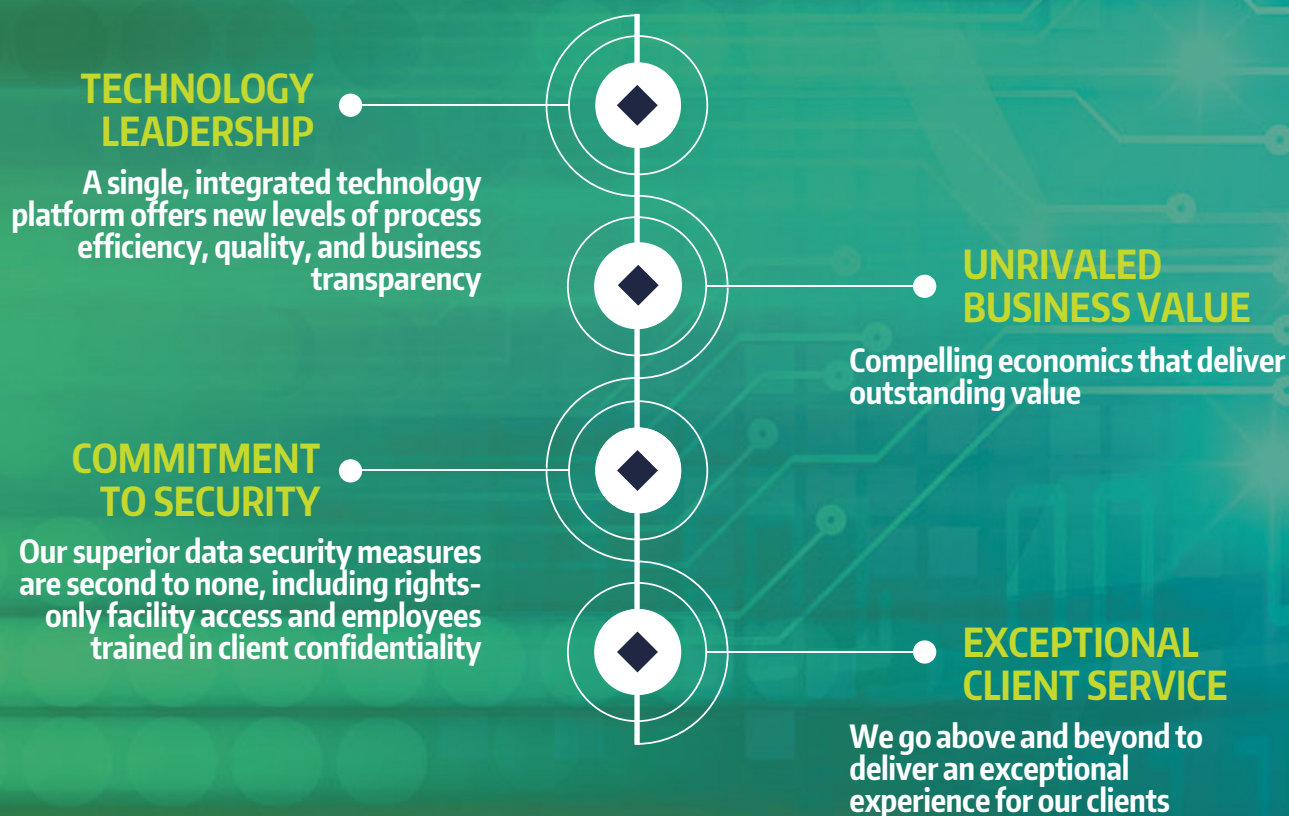

- Flexible formats accommodate your needs
- Platforms are integrated to process internet, paper, and telephone votes efficiently
