

Packed meat tray

Reusable folding trays

field of application	Designed for packed meat: Individually wrapped larger primal cuts. Layer packed small cut items. Multi wrapped small and medium sized primal cut items. Tray packed smaller primal cuts or portioned meat. Modified atmosphere packed primal cuts or retail ready trays. Vacuum packed items. Not designed for unpacked fresh or frozen meat
storage conditions	on dolly's interstackable with nestable packed meat trays and lid. suitable for cold store until - 15°C. Maximum temperature is day temperature without artificial heating. not suitable for additional production processes as pasteurization or sterilization with artificial heating above > 30°C No folding of frozen trays (under 0 °C) to avoid damage.
transport conditions	Manual transport with dolly pull handle Wrapping to avoid tumbling. Folded in when empty Wrapping and/or strapping for normal road transport
materials composition additives others	High Density Polyethylene - HDPE virgin material Colour, UV stabiliser. adhesive barcode/RFID label: polyester film
features Identification	Tracking & Tracing Barcode GS1 (EAN) 128, incl. unique serial number – human readable as Global Returnable Asset Identifier (GRAI) RFID tag – UHF inlay 860 – 960MHz Linear barcode can be read by standard equipment 2D barcode can be read by adapted equipment
testing material/ product design barcodes cleaning process RFID	mass, dimensions, stacking height, environmental stress cracking, quick compression test, weather resistance and recycling GS1 Nederland, Amsterdam, Netherlands Tested by accredited laboratory Functionality
dolly wrappings	single vertical band
regulations food contact approval/ traceability	Euro Pool System® complies in all terms with: Regulation (EC) No 10/2011 on plastic materials and articles intended to come into contact with food, and its amendments up to and including (EC) No 2023/1627 Regulation (EC) No 1935/2004 of the European Parliament and of the Council, on materials and articles intended to come into contact with food.
chemicals	Regulation (EC) No 1907/2006 , concerning the registration, evaluation, authorisation, and restriction of chemicals (REACH)
hygiene	Regulation (EC) No 2023/2006 on good manufacturing practice for materials and articles intended to come into contact with food, and
environment	EU Commission Directive 94/62/EC , on packaging and packaging waste EU Standards: EN 13427:2004 – requirements. EN 13695-1:2000 – heavy metals below maximum permitted levels for components EN 13428:2004 – prevention by source reduction EN 13429:2004 – product reuse EN 13430:2004 – recovery by material recycling EN 13431:2004 – recovery in the form of energy USA: CONEG 1989 – reduction of toxics in Packaging Law (heavy metals)
quality	ISO 9001:2015 – certification by Bureau Veritas.
stacking compatibility	IC-RTI guideline (Int. Council for Returnable Transport Items) – nominal dimensions RTI.
other	More specific information on the regulatory aspects is available in the relevant Food Approval /Hygiene or Environmental Declarations which can be obtained from your local Euro Pool System office.
customs	EU, declaration 1207/2001, preferential origin status, can be obtained from your local Euro Pool System office.
