

# Presentation training

Learn how to present, from the best

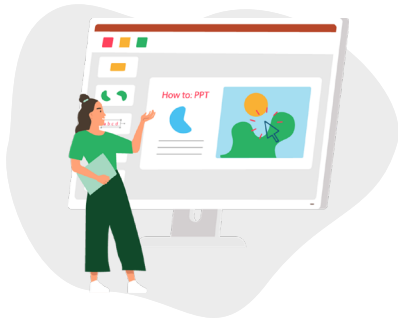

A successful presentation has the power to influence its audience and drive them to action. We have three one-day workshops that each target a specific part of the presentation process. Empower your team to write, design and deliver engaging PowerPoint presentations that drive real change.

## VisualStory®

What makes a powerful presentation? Clearly articulated key messages that emotionally connect with your audience, combined with visuals that engage and excite.

Learn to plan and create your presentation journey, identifying key insights and messaging to maximise audience engagement.

## PowerPoint design

This hands-on session teaches you to design first-class presentations. Upskill your inner designer and walk away with the tools you need to get the most out of PowerPoint.

Become faster at making your PowerPoints look more professional and engaging. Learn to design visually appealing slides that influence your audience and help to drive the right outcomes for your presentation.

## Public speaking

Whether it's one-on-one coaching or a team workshop, learn to overcome nerves, engage your audience and present with confidence. You'll be taught all the tips and tricks to become the next Steve Jobs, Brené Brown or Barack Obama.

Want the best of both worlds? Pick two favourites and we can create a custom one-day workshop that covers key topics from both.
