

Customer Introduction Email to Celigo After a Referral

As a courtesy, I contacted Celigo on your behalf regarding the Shopify integration. They have over 250 Shopify customers such as Cotopaxi, Ruffwear, and Magnolia Homes who rely on them for mission critical sales integrations. Celigo saves them thousands in integration development, error handling, and manual labor. On top of that, they have a reliable platform that can easily scale to support your high season volumes.

A Celigo product specialist will be in touch soon to discuss your integration goals and how they can best support you.
