

# NetSuite - Amazon Integration App for Amazon Seller Central

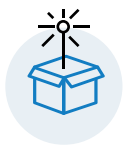

celigo

ORACLE  
NETSUITE

amazon

Prebuilt integration to automate transfer of orders, fulfillments, inventory levels, and more between NetSuite and Amazon

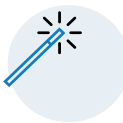

### Comprehensive flows out-of-the-box

Automate order-to-cash across sales, orders management, fulfillment and much more

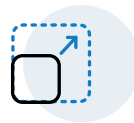

### Intuitive setup without coding

Intuitive design that guides you through the process of setting up the integrations, without worrying about APIs or code

### Self-service with low maintenance

Built for both IT and end-users, take control of your integrations with the Celigo standalone application

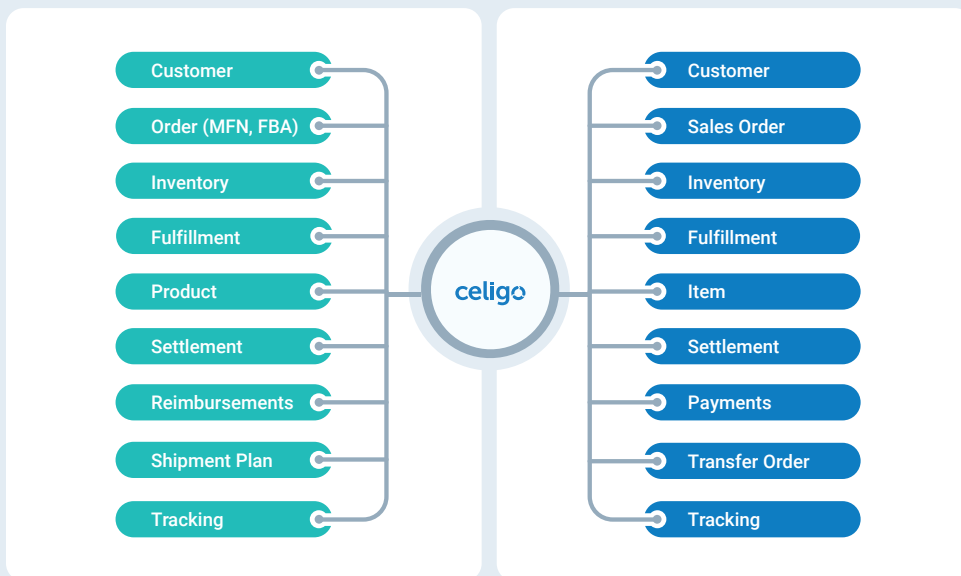

### Customizable and expandable

Data integration flows can be customized and expanded with Celigo's iPaaS, without requiring technical resources

## What is an Integration App?

Many other vendors offer recipes and accelerators that help connect different applications. However, **only Celigo offers Integration Apps.**

Integration Apps are fully managed, standalone SaaS applications that connect two applications. They are built on an iPaaS, which allows for a level of robustness and customization not possible with direct connections.

“ Celigo's Integration Apps are perfect for us. I started with an Amazon implementation - it was perfect out of the box and worked exactly how we wanted it to. ”  
Jay Thill — Director of Ecommerce, Cargo Equipment Company

Integrated SuiteApp

# Advanced Capabilities

## Order and Customer Sync

Synchronize Merchant Fulfilled (MFN), Fulfillment By Amazon (FBA), Seller Fulfilled Prime (SFP) orders from Amazon Seller Central to NetSuite to make sure orders are fulfilled at a rapid pace

## Products

Sync Products, Images, Categories and Attributes from NetSuite with support for all NetSuite Item types. If Amazon Product Variations are setup as Inventory Items (non-matrix) in NetSuite, the advanced Virtual Variations feature keeps them in sync

## Inventory Levels

Update inventory levels from either single or multiple warehouse locations with support for all the key NetSuite Item types (Inventory, Matrix, Kits and more)

## Sales Tax Handling

Use NetSuite (SuiteTax) or Amazon sales tax reporting to calculate and report sales taxes on the NetSuite Sales Orders

## Settlement Reconciliation

Automatically download Settlement reports from Amazon and reconcile by creating journal entries to streamline cash flow management and identify payment discrepancies.

## Sell Globally (Add-On)

Prebuilt support for connecting all Amazon Marketplaces (US, CA, UK, AU and more) / Amazon unified accounts to a single NetSuite account

## FBA Inbound Shipments (Add-On)

Generate Shipment Plans in Amazon from within NetSuite and simplify the transfer of Inventory to Amazon Fulfillment Centers. Automatically create Item Receipts in NetSuite when Amazon receives your Inventory.

## Built on a modern iPaaS platform Fast, Scalable, Flexible

Celigo Integration Apps are built on Integrator.io, the complete and intuitive iPaaS that allows you to quickly connect NetSuite with most apps.
