

celigo

Magento 2 – Acumatica Quickstart Bundle

Streamline your eCommerce operations with Celigo's
Magento 2 – Acumatica integration

Order Management

View and manage orders in Acumatica as soon as shoppers check out on the storefront

Shipping & Fulfillment

Leverage advanced fulfillment logistics; pick/pack/ship and send real-time shipping information to customers

Inventory Levels

Synchronize stock levels between Acumatica and Magento to minimize under/overselling products

Products & Variations

Centrally manage product catalog in Acumatica and automatically publish product listings to Magento

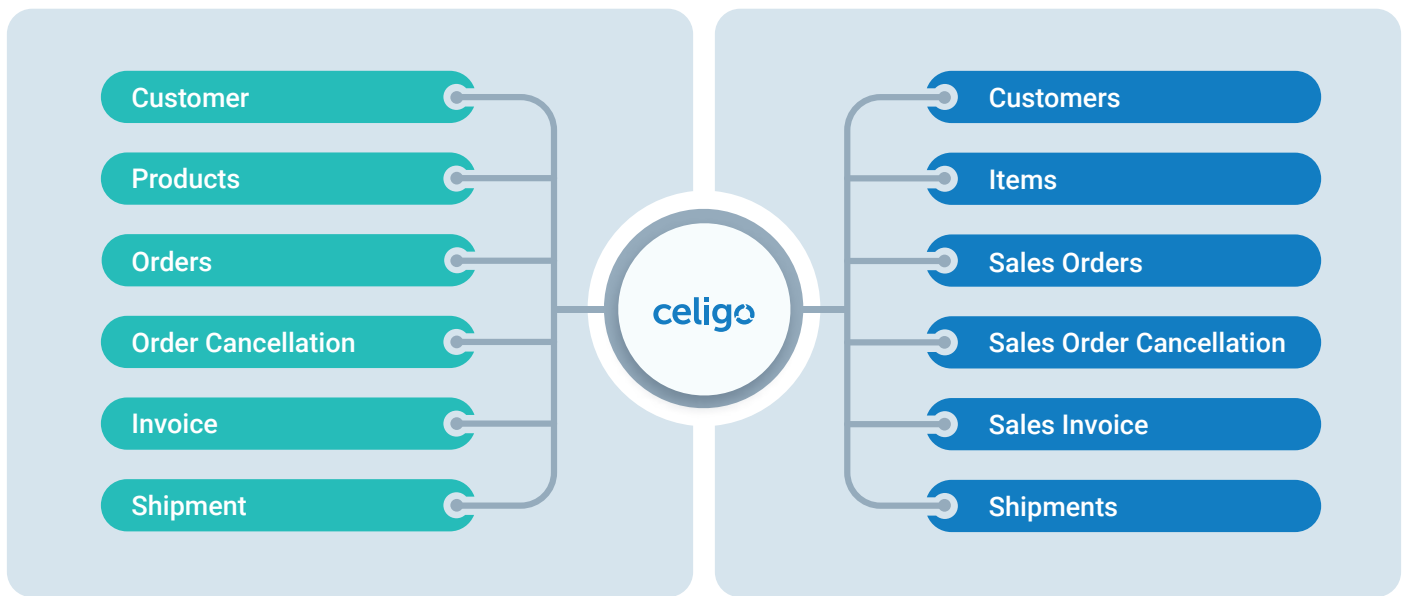

Cancellations

Manage cancellations within Acumatica and make statuses available in Magento

Key Benefits

- ✓ **Optimize the buying experience** with timely fulfillment, accurate product availability, and real-time order statuses
- ✓ **Achieve fast time-to-value** with prebuilt flows for common integration use cases
- ✓ **Efficiently scale operations** by automating processes that rely on Acumatica and Magento platforms

Integrate your Magento stores with Acumatica for timely order fulfillment, accurate product availability, and real-time visibility into order statuses. Celigo's Magento – Acumatica Quickstart Bundle can be configured and deployed without worrying about APIs or code.
