What is an Integration App?

Many other vendors offer recipes and accelerators that help connect different applications. However, **only Celigo offers Integration Apps.**

Integration Apps are fully managed, standalone SaaS applications that connect two applications. They are built on an iPaaS, which allows for a level of robustness and customization not possible with direct connections.

Key Benefits

Automate return management and refunds end-to-end, starting as soon as a return is authorized
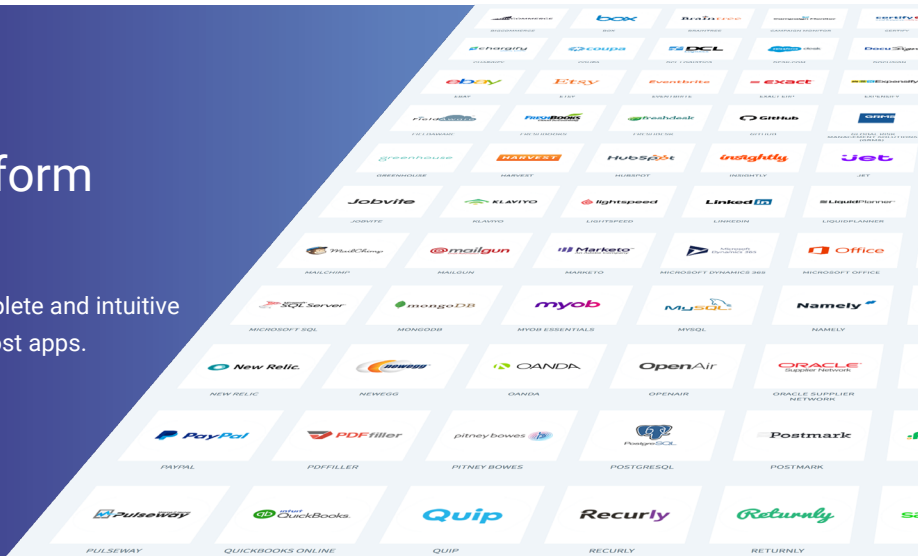

Save time and minimize errors by eliminating manual data entry

Integrate effortlessly with pre-built, out-of-the-box integration that does not require IT support

Built on a Modern iPaaS Platform
Fast, Scalable, Flexible

Celigo Integration Apps are built on Integrator.io, the complete and intuitive iPaaS that allows you to quickly connect NetSuite with most apps.
