“

“Celigo is the easiest integration I’ve ever accomplished and probably the least expensive, as well. It meant that we didn’t have to spend tens of thousands of dollars in order to get this integrated. Now that it is live, I literally need one hour of Celigo’s time to check it, and then I’m done. So that makes it very nice, and gives me a lot more options as a business.”

Jenna Pennamen
Director of Operations, Gabriel Cosmetics

”

“I found it to be very user friendly and any tweaks or changes that I’ve had to make have been very easy and the errors are very clear. When you run into an issue its very easy to tell what the problem was.”
