

celigo

Magento 2 – NetSuite Commerce Edition Quickstart Bundle

Optimize eCommerce operations with prebuilt Magento 2 – NetSuite integration

Order Management

View and manage orders in NetSuite as soon as shoppers check out on the Magento storefront

Shipping & Fulfillment

Leverage advanced fulfillment logistics; pick/pack/ship and send real-time shipping information to customers

Inventory Levels

Synchronize stock levels between NetSuite and Magento to minimize under/overselling products

Products & Variations

Centrally manage product catalog in NetSuite and automatically publish product listings to Magento

Payment & Invoicing

Support multiple payment capture scenarios – including payment at time of sale or after fulfillment

Cancellations & Refunds

Manage cancellations and refunds within NetSuite and make statuses available in Magento

Key Benefits

- ✓ **Optimize buying experience** with timely fulfillment, accurate product availability, and real-time order statuses
- ✓ **Take control of your integrations** with tools that let you configure and map changes on the fly
- ✓ **Efficiently scale operations** by automating processes that rely on NetSuite and Magento platforms
- ✓ **Reduce time spent on maintenance** with sophisticated error handling and an interactive dashboard

Prebuilt, full-featured integration for Magento 2 and NetSuite

“ The connector is **easy to use and very reliable**. We would without hesitation recommend this extension to anyone requiring this functionality

— OLIVER CHURCHER, MARKETING MANAGER,
MOTOCADDY

“ Our integration with the Celigo Magento 2 Connector was a seamless and headache free process. Our Enabled implementation team helped us accomplish our **implementation in one week**.

— CHRISTOPHER DONNELLY,
DIRECTOR OF DIGITAL & ECOMMERCE, BUSCEMI LLC
