

S&G® 2890B Alarm Integration Kit

S&G 2890B, built to Federal Specification FF-L-2890B, is an integrated door lock designed to meet both security and life safety demands of highly sensitive SCIF environments. The S&G 2890B Alarm Integration Kit gives you the ability to monitor the complete status of the S&G 2890B.

Secure Entry + Life Safety + Alarm Integration

The S&G 2890B Alarm Integration Kit gives you the ability to monitor the complete status of the 2890B Lock by integrating with your existing security monitoring system. The Alarm Integration Kit can be configured to meet the needs of your facility, allowing you to monitor any combination of the six different lock positions, as shown below.

S&G® 2890B Alarm Integration Kit

While the S&G 2890B Alarm Integration Kit network components may be utilized to help monitor your lock status and communicate with 3rd party alarm systems, S&G cannot guarantee compatibility of the Alarm Integration Kit with third party products. S&G recommends that you work with your third party integrator to determine compatibility and performance of the system. S&G shall have no liability or obligation for additional products or services provided or delivered by a third party.
