

Flexible & Remote Working

Softworks solutions make it easy to manage flexible working options including; flexitime, part-time working, remote working and working from home. We can assist you to automate and accurately record hours worked; maintain flexi balances, time in lieu and manage planned/unplanned absences.

At a Glance, The Benefits:

Automate & Accurately record hours worked

Say goodbye to spreadsheets and manual processes and hello to one of the most cutting-edge systems available for managing your employee's flexible working hours. With Softworks solutions, all your employee's working hours are captured to the minute. Work patterns are easily set up within the system to cater for flexible working and hours in excess of the standard week are put into a flexi balance.

Save time, eliminate errors & duplication

Significantly reduce the number of queries from employees to line managers, HR and payroll. Administrative tasks and backlogs are dramatically reduced, leaving staff to get on with more strategic and productive tasks.

Easily edit, authorise & analyse working hours

Hierarchical workflow authorisation allows supervisors to easily and quickly edit, authorise and analyse working hours, holidays and absences all in one screen. Furthermore employees have the facility to check flexi balances, holiday balances and view approval status of holiday requests and without having to contact supervisors or HR for information.

Management Reporting & Analytics

Softworks solution provides employee data and information when and where it is needed, in a flexible, comprehensive, intuitive manner. Build a clear picture of employee time through detailed data and reports on flexi-balances, attendance, absenteeism and holiday leave.

Scalable & Configurable to your needs

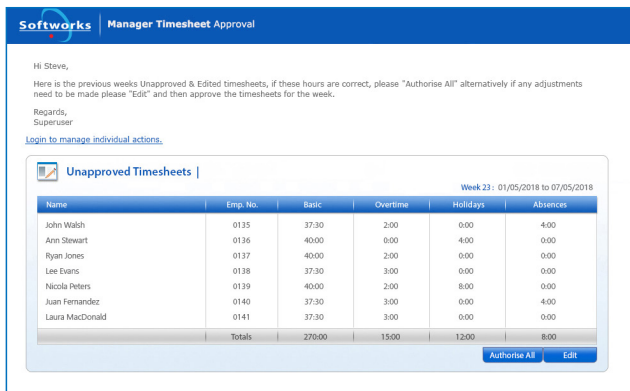

Scalable and completely configurable, it applies and automates processing your organisation's unique pay rules and policies accurately and consistently and is fully compliant with legislation.

Employee Self Service included as standard

With employee self-service included as standard your employees are always aware of when they are close to reaching their target, banked, debit or credit hours and can take time off or work more hours accordingly. Employees love the fact that they can easily check flexi balances, request holidays and absences and view timesheets. The system is easily accessible via web, iPad, smartphone or whatever way works for your organisation.

Key Capabilities

- Supports flexible and family-friendly working arrangements.
- Eliminates paper and spreadsheet forms and timesheets.
- Standardises organisational policies and rules.
- Formalises workflow authorisation.
- Saves time, eliminates errors and duplication. Encourages employee self-service.
