

PUT YOUR STUDENTS

ON A

SAFER PATH

Student threat assessment helps to address the problem of targeted school violence. As one component of an overall strategy, threat assessment works to create cultures and climates of safety, respect, and emotional support. In collaboration with the subject matter experts at SIGMA Threat Management Associates, NaviGate Prepared has developed a software platform designed to guide and support your threat assessment teams and processes.

It will empower your staff with:

**Alignment with the
federally recommended
model created by SIGMA**

**Streamlined
documentation
and reporting**

**Comprehensive case
management process**

**Collaborative data entry
environment for teams**

**Easy sharing with
outside agencies**

**Reduced liability
through consistent,
detailed documentation**

HOW IT WORKS

Our Threat Assessment software platform provides you with a simple user interface that offers a consistent, thorough process for threat assessment, based on leading practices from SIGMA and the United States Secret Service. It walks you through step by step:

① Screen

Identify whether there is imminent danger, and determine the need for a full threat assessment investigation

② Gather

Obtain and create a record of information from knowledgeable sources including parents, students, teachers, other school staff, etc.

③ Analyze

Understand specific concerns regarding the person, motive, targets, and ability to carry out an act of violence by exploring 11 key themes that may indicate potential for violence

④ Assess

Use the insights gained from the Analyze step to determine whether the person or situation poses the threat of violence

⑤ Manage

Determine the appropriate course of action and response plan for the identified threat

⑥ Monitor

Track progress against the response plan over time

NaviGate Prepared Threat Assessment allows threat assessment teams to work more thoroughly and effectively. With our intuitive tools and simple interface, you have a solution that supports your efforts to move students off a path of violence.
