

HONEST BUILDINGS CUSTOMER STORY

NAI FARBMAN |

Full-service brokerage and property management, with over 25 million square feet managed in the Midwest.

ANDREW GUTMAN, PRESIDENT OF NAI FARBMAN

“We oversee 25 million square feet of buildings and dozens of property management and construction professionals across the Midwest. We saw a **nearly immediate return on investment** in time and project savings for our team and our clients after we adopted Honest Buildings.

With streamlined bidding and cost tracking, gone are the days when we would be interrupted all day long with emails and phone calls from vendors after sending an RFP. Through Honest Buildings all vendors work from the same knowledge base and **we can level bids at the click of a button.**

We love having one centralized system through which we run procurement, receive daily updates and access data on the costs and status of our construction and capital projects. **Honest Buildings is giving our team members over 25% of their week back** to recapture and focus on the aspects of the job that they love instead of worrying about administrative work. We knew the platform would be a game changer when after the first training session there was zero resistance to using the product - a rarity in this industry.”
