

# Comparison Matrix: Cloud Phone System vs. On-premise Systems

## Easier to manage and scale • Lower capital expenditure & operating costs

### Ease of management

- Simplify management & scaling with the Control Panel, a powerful, intuitive web-based administration tool
- Add users and manage features with a few clicks
- No technicians required
- Enterprise-grade reliability
- Simple integration with hosted Exchange

### Preserve capital & lower costs

- No capital expenditure required
- Unlimited calling in the US
- Flat, per-user monthly rates
- No maintenance costs

✓ Yes / included / available / full functionality

○ Possible or partially available with some limitation / extra cost

✗ Not available

	Sonoran Integrations Elevate Cloud System	On-premise system
Easily supports multi-site businesses and remote workers	✓	✗
Requires no capital investment beyond the phones themselves	✓	✗ Must pay for equipment, software, technicians and wiring
Flat, per user monthly rate	✓	✗ High initial hardware & software costs. Unpredictable maintenance & upgrade costs.
Unlimited calling to US	✓	✗
Full redundant datacenters & Tier 1 Internet providers	✓	✗
Free onboarding & migration	✓	✗ Included in vendor costs
Keep your existing numbers	✓	✓
Free 24/7 phone and email support	✓	✗ Support limited by capacity of your staff, vendor & telco
Full mobility including softphones	✓	○ Depends on vendor, requires IT expertise
Includes free access to conference calling service	✓	✗ Software and hardware must be purchased separately
Pre-integrated with Outlook available	✓	○ Depends on vendor, requires IT expertise
Simple web-based management from any location	✓	○ Many vendors require multiple interfaces for advanced features.
Simple to scale	✓	✗ Scaling requires technician and IT expertise

## Comparison Matrix: Cloud system vs. Other Cloud Providers

### Focus on the value of integrating phones and email

#### vs. Consumer calling services (Skype, Google Voice)

**Sonoran Integrations' Elevate Cloud System is built for businesses, not consumers.**

- Fortune 500-style business features
- Unlimited calling to mobile and land-lines
- White-glove onboarding and migration

#### vs. Other cloud providers (Vonage, Ring Central, Fonality, Vocalocity)

**Simplicity and value through integration**

- Cloud PBX is pre-integrated with Sonoran Integrations' cloud services suite
- Single bill for email & phone
- Single source for support
- Single admin tool
- Training synergies

✓ Yes / included / available / full functionality

○ Possible or partially available with some limitation / extra cost
