Notice: New MRJ website and live webcast for first flight

Mitsubishi Aircraft Corporation
Mitsubishi Heavy Industries, Ltd.

Nagoya, November 2, 2015 – Nagoya, November 2, 2015 – Mitsubishi Aircraft Corporation and Mitsubishi Heavy Industries, Ltd. (MHI) have established a new website in preparation for the first flight of the first flight test aircraft of the MRJ (Mitsubishi Regional Jet), their next-generation regional jet.

Live webcast is scheduled at the new website, to show takeoff and landing on the day of the first flight. Since Mitsubishi Aircraft does not plan to arrange for a special viewing area for the general public, we encourage viewers to observe the flights online so as to avoid congestion in the vicinity of the Nagoya Airport. Please check the website of Nagoya Airport Terminal Building Co., Ltd. at <http://www.nagoya-airport-bldg.co.jp/> to confirm flight-day restrictions at the airport.

Website URL : www.flythemrj.com

Live webcast (USTREAM) : <http://www.ustream.tv/channel/NtahYVsFWxG>
