## Mitsubishi Aircraft Corporation: Organizational and Personnel Changes

---

### **Nagoya, December 2, 2016 -**

Mitsubishi Aircraft Corporation announced organizational and personnel changes effective from December 1, 2016.

### **Organizational changes:**

The System Design Department under the Engineering Division is subdivided into the Mechanical System Design Department and the Electrical System Design Department, to address issues on system design in a more timely and smooth manner.

Accordingly, the Engineering Division is restructured from three departments and one office into four departments and one office.

### **Personnel changes:**
