

Pepper Investing In A Greener Future

Pepper Communications Ltd Environmental Policy Statement

Our Aim:

At Pepper we aim to provide intelligent and creative marketing solutions in an environmentally responsible way. We help our customers to communicate by harnessing emergent technology and adding value to their message through creativity and sustainable sourcing, then delivering it through print & mailing media.

We recognise that our processes impact on the environment and we are committed to reduce significant negative impacts where possible and also aim to improve the environment in which we live and work.

We have assessed our business activities and consider our main environmental issues to be:

-  The consumption of electricity
-  Use of and storage of chemicals
-  Waste management
-  Fluorinated gases & ozone depleting substances

 Continued over leaf 

Pepper Communications Ltd is Committed to:

-  Using processes, practices and materials to protect the environment and prevent pollution.
-  Reducing Carbon as part of our formal system
-  Compliance with relevant legislation and other applicable obligations, eg; ISO 14001, FSC
-  Continually looking at material use and waste production in order to reduce its impact through using best available techniques where appropriate
-  To reduce energy use through better management and monitoring
-  Encouraging our customers to specify environmentally sensitive materials such as FSC® and other sustainably sourced paper and vegetable-based inks
-  Control of externally provided services with regards to products and services which have or can have significant environmental impacts are influenced through contractual or other agreements
-  Using low solvent printing processes
-  The training and education of our staff and people working on behalf of the company to enable our environmental objectives to be achieved
-  Continual improvement in all areas of our business, including our environmental systems.

We will manage our environmental commitment through our ISO 14001 certified environmental management system, by setting and monitoring environmental objectives through the framework of management planning and review meetings, and by making the people who work for us aware of this policy, their impacts and responsibilities. This statement shall be subject to annual review to ensure its ongoing suitability and will be made available to external interested parties, upon request.

The scope of the Pepper Communications environmental management system is as follows:

The design, production and supply of lithographic, digital printing, print finishing and mailing services.
