

LIGHTFORCE™

ORTHODONTICS

The World's Only, Fully-Customized,
3D Printed Bracket System

Adding LightForce Orthodontics to your “preferred lab” list in the iTero® scanner.

If you are using an iTero scanner you can simplify the scan submission process by having LightForce Orthodontics added to your menu.

To establish certified connectivity between your practice and the LightForce lab, contact iTero Customer Advocacy at (800) 577-8767 with your iTero Comprehensive Orthodontic subscription number and request that the LightForce lab be added to your “preferred lab” list.

To complete the registration you will be asked to provide the LightForce number, (800) 481-0185. After confirmation, you will then see the LightForce lab listed in the “ship-to” field when completing the Rx.
