

HEAD RUSH DEVICE SIDE COVER REPLACEMENT

Side Cover Replacement

Head Rush Device side covers are removable and simply snap into place on the device casing. Remove side covers by placing a flat head screwdriver under the edge of the cover and carefully levering it up. To replace, align the outer profile of the side cover with the profile of the casing and snap into place.

DO NOT OPERATE THE DEVICE WITH SIDE COVERS REMOVED.

Side Cover Assembly

Every device has a unique side cover, it is important to only replace side covers with the appropriate original Head Rush Technologies part number. Most device side covers are compatible with either side of the device, however TRUBLUE Speed has a unique cover on one side to allow for the additional internal components.

All replacement parts are available at www.headrushtech.com
