

Plytix is hiring

FULL STACK DEVELOPERS

Us...

Plytix is a software provider for e-commerce and multi-channel marketing, looking to level the playing field for small and medium-sized businesses in their quest to compete against big corporations. Our workforce consists of ex-Googlers, and former Oracle agents, as well as professional athletes, and as much multilingualism as you can squeeze in (8 nationalities, 12 languages and about 100 different accents). We work with brands and retailers all around the world, with presence ranging from the U.S all the way to Hong Kong, specializing in industries like action sports, erotica, health & beauty and more.

Your Role

We are looking for a full-stack software engineer with strong technical problem solving skills who knows how to work well in a team to help us build cutting edge technology and user-friendly interfaces.

Personal Requirements

- At least 3 years of experience in full stack development
- B2 English Level or higher
- Knowledge of required technologies (see below) and UX design

Technology Requirements

- Backend
 - Experience with SQL and no-SQL databases especially MongoDB
 - REST APIs (XML, JSON)
 - Python (our main programming language), but other OO languages would also be considered.
 - Flask micro-framework is a plus
- Frontend
 - HTML5/ CSS / Bootstrap. Experience with Sass or Less would be valuable
 - JS development (Angular)

- Other Technology (no experience required, but appreciated)
 - Git
 - Docker
 - RabbitMQ
 - AWS
 - Celery

What's in it for you?

- The chance to be a part of an exciting start-up business, ambitious to be the next billion dollar company
- The opportunity to work with a multicultural team of awesome individuals
- To be a part of a relaxed, employee-first culture (with hammocks, bean bags, free lunch and more...)
- Gorgeous location in Malaga, Spain (Not in the PTA!)
- Competitive salary, and stock opportunities

Think you've got what it takes to be a part of the awe-inspiring team that is Plytix, or even if you just want to get in touch, don't be shy! Send an email to alex@plytix.com that includes:

- Your CV
- An indication of the job you are applying for
- Your availability to start
