LAMOR
ENVIRONMENTAL SOLUTIONS

Lamor Seahunter

BENEFITS

- Unique and specific design for oil recovery operations
- Sturdy construction
- Open deck layout
- Flexible configurations
- Multipurpose usage
- Easy to transport and store
- Low maintenance
- Low draft
- Propeller protection
- Quick connection lock pins

The Lamor Seahunter is a multi-purpose work platform that consists of two connectable hulls, a motor and a cargo hull. The platform is ideal for assisting in skimming and clean-up operations nearshore, rivers and lakes.

A Lamor side collector can easily be attached to the side of the Seahunter to facilitate and increase efficiency in oil spill response operations.

The hulls are catamaran shaped which provide a stable work platform for oil recovery operations. The hulls are identical in dimension; the motor hull is equipped with a 9.9 hp or 25 hp outboard engine with a steering console with hydraulic steering as well as an electric start and trim/tilt of outboard engine.

Pending engine selection, two models of the Lamor Seahunter are available: the Lamor Seahunter 9.9 and the Lamor Seahunter 25 SC. The platforms are connected to each other in a row configuration with quick locking pins. The outboard engine is fitted with a propeller protection. The platform surfaces have anti-skid material on all flooring including top and front.

Each hull is rotomolded thermo plastic (PE) which ensures a durable and low maintenance surface. Moreover, two or more hulls may be connected, side by side, or in length to perform an even longer and wider platform. Each hull can carry 1500 kg (3300 lbs) which is more than three times its own weight. The Lamor Seahunter hulls may be stored on top of each other and are easily transported on trailers, in trucks, containers etc.

TECHNICAL SPECIFICATIONS

Length (single hull)	5600 mm	18.3 ft
Length (double hull)	10900 mm	35.8 ft
Width	2360 mm	7.7 ft
Weight (single hull)	450 kg	992 lbs
Draft	350 mm	1.1 ft
Carrying capacity	1500 kg	3307 lbs
Power, pending engine selection (incl.)	9.9 or 25 hp	9.9. or 25 hp
