

Safe
Systems®

LESS WORRYING. MORE BANKING.®

We believe **every financial institution**, regardless of size, should be able to leverage the best technology, compliance, and security solutions to serve the financial needs of their community.

We provide compliance centric IT services designed exclusively for community banks and credit unions, ensuring that they are kept up to date on the current technologies, security risks, regulatory changes, and FFIEC guidelines.

Ideal for Community Banks and Credit Unions Who...

Worry about keeping up with **changing regulations**

Require custom reports to **satisfy examiners** and assist managers in making decisions

Are concerned about **hiring and training** a specialized IT department

Don't have in-house expertise to resolve **complex issues**

Worry about their **business continuity plan** and ability to bounce back following a natural disaster

Are concerned with new and emerging **cyber threats**

Are not sure how to build the right **cloud strategy**

Why Choose Safe Systems?

“ Having a **team of compliance experts** that are both familiar with industry norms and work with different banks around the country has really **given us an enormous sense of security.** ”

Beth Hughes, Talbot State Bank

Visit us online at www.safesystems.com

“ Our new process will be much easier to update and manage, and in turn, drastically **reduce our prep time** for exams and audits. ”

Jane Pitts, Oconee Federal Savings and Loan Association
