

TRANSFORMING BUSINESS THROUGH TECHNOLOGY

THE OFFICE 365 ENABLED MODERN WORKPLACE

The way today's modern workers communicate is creating a paradigm shift in the workplace setup; businesses need to sit up and take notice of this if they want to attract and retain new demographics and workers of the future.

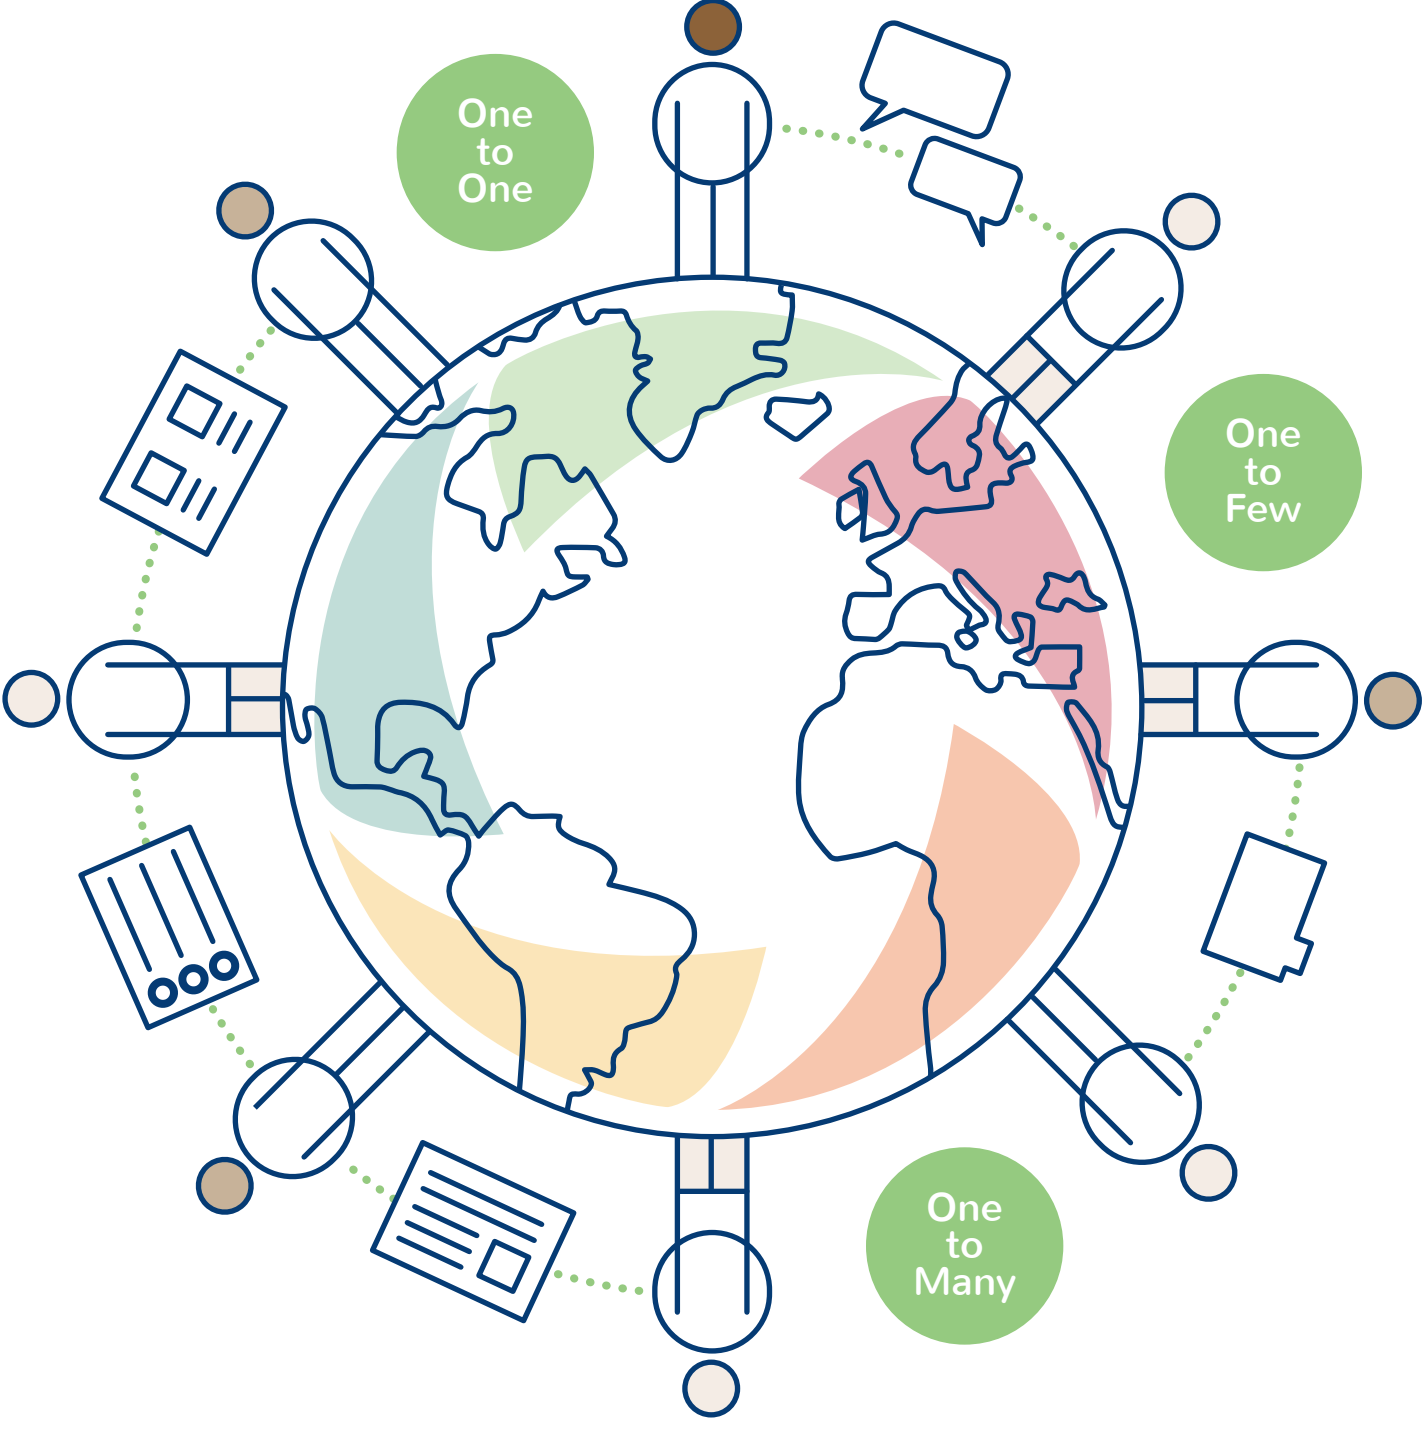

For today's workforce, who are all too familiar with the concept of 24/7/365, Office 365 enhances their working experiences – allowing for anytime anywhere working across multiple devices.

Experts predict that by 2020...	millennials will make up 35% of the global workforce	...with Gen Z making up 24%	That equates to more than half the entire workforce population!	And by 2025, 75% of the global workforce
---------------------------------	--	-----------------------------	---	--

Meetings no longer require travel / no longer need to be in the same office.

Office 365

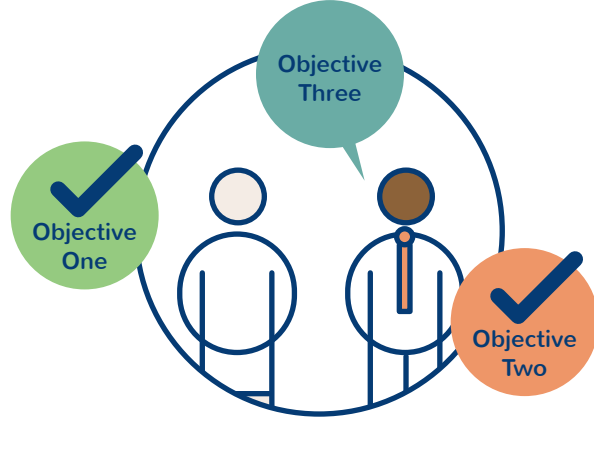

Office 365 enables a modern way of working and powers your modern workplace

In a world where we are always connected, collaboration with others can happen on the move, from remote locations, across continents, anytime, anywhere.

We are no longer a 9am - 5pm world. Office 365 allows for always-on communication. 77% of millennials say a flexible work schedule enables them to be more productive, and they will actively seek out companies that offer this.

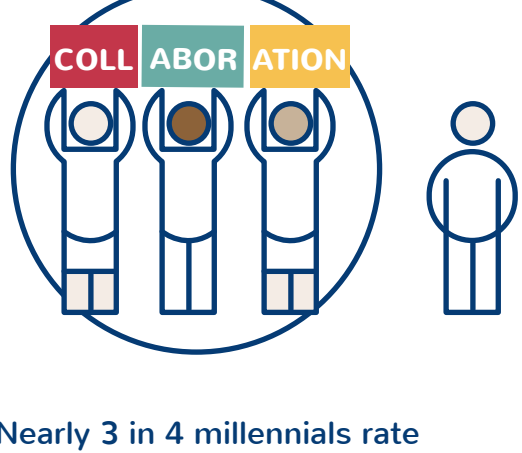

79% of millennials say flexible working is very important to them	23% of millennials want an even mix of office / home working	96% of millennials say the reputation of the company they work for is important to them
---	--	---

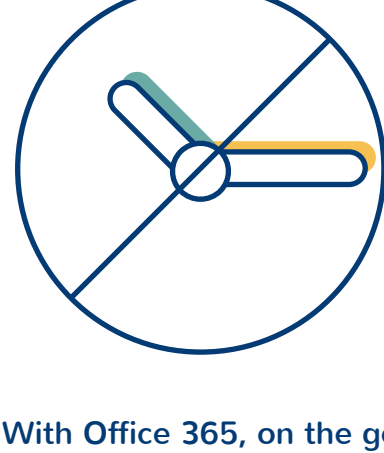

Short-term objectives are important to millennials and research has shown they prefer regular check-ins to annual reviews so that plans can be changed accordingly.

Communication needs to happen as fast and as regularly as social updates do.

Nearly 3 in 4 millennials rate collaboration in the workplace as very important

With Office 365, on the go communications & collaboration does not need to stop.
