

## **POSITION**

Project Manager

## **JOB DESCRIPTION**

Join the SilverBlaze team and be part of an exciting rapidly growing, international software development organization specializing in Customer Web Portals for the Utilities industry.

SilverBlaze is currently searching for an enthusiastic, Project Manager to provide project management, organization and some technical guidance for our existing Customer Portal software platform.

This person will interface with customers and our Java Development Team, to assist with project implementations and client management. This person will have an active role in providing exceptional organization, project management, and customer support that is helpful and timely.

The ideal candidate should be a team player with strong people skills. Candidates need to be self-motivated, self-learning, and detail-oriented.

## **REQUIRED QUALIFICATIONS & EXPERIENCE**

- BA/BSc, related College technical degree; or equivalent applicable industry experience
- Certified Project Manager - PMP
- Exceptional people skills
- Excellent problem solving and workload prioritizing skills
- Multi-tasking and time management
- Excellent English written and verbal communication skills
- Demonstrable customer care and focus
- Familiar with basic HTML Development
- Willingness to learn and the ability to self-teach
- Flexibility in working hours
- Canadian employment / work status required

## **BENEFICIAL SKILLS**

- Motivated to learn and grow in the position
- Working knowledge of Jira
- Utility industry experience
- Training or working knowledge of Java development
- Training or working knowledge of web applications

- Training or working knowledge of AJAX, XML, SQL, Javascript/jQuery
- Experience with Photoshop, Dreamweaver or similar software
- Valid driver's license and access to a car
