

Think beyond the present Think for the next 10 years.

When it comes to your workplace, it's not about one size fits all. It's about addressing the specific needs of your business and your people.

COVID has dramatically shaken up the way things are done. As a global service provider, we're leveraging our industry knowledge and global supply chains to assist our clients and partners with their workplace needs, for the short, and the long term.

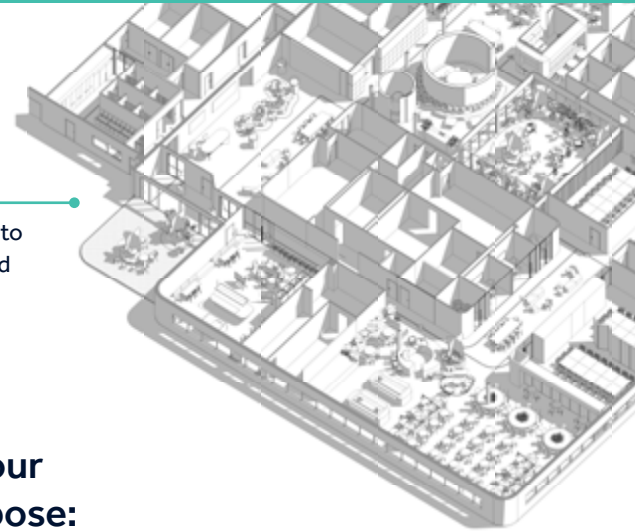

With global talent collaborating across Strategy, Design, Pre-construction and Construction, Unispace is a one-stop-shop for your integrated workplace solution.

What is different about our offering?

We are,
One team.
One cost.
One integrated solution.

From providing hand sanitizing stations to a full office design and construction build out, Unispace has a solution for you.

We take data driven solutions and apply them to your workplace, creating a space that is truly fit for purpose:

We always begin with your specific business considerations and goals:

- Business planning
- Workplace optimization
- Changes to ways of working
- Change management
- Return to work implementation
- Business operations
- Safe distancing
- Wellbeing

And create service scenarios directly in relation to your needs:

Select service options we're providing include:

- **Return to work on day 1:** The most minimal checklist for a fast return to work
- **In flight design:** For clients that are midway through a project
- **Retro & future fitting:** For clients with a recent project that require a more robust return to work strategy
- **Full new design:** A full offering creating the workplace of the future for our new post-COVID reality

Think beyond the present Think for the next 10 years.
