

## **Equality in the face of new technologies on the Wolves Summit stage**

**The eleventh edition of the international Wolves Summit conference is ahead. On March 23 and 24, investors, corporations and startups from around the world will meet at the Palace of Culture and Science in Warsaw to discuss effective funding, the ethical challenges of new technologies and development opportunities for the digital economy.**

450 startups, 250 investors and 450 corporations will appear at the next Wolves Summit conference. The spring edition will focus on the topics of effective financing, equality and accessibility in the technological industry, the development of medical technologies and business ethics. Wolves Summit puts the problem of diversity and inclusion as well as accessibility in the technology industry very high. In this edition of the conference we, once again, collaborate with BalansPL, an NGO that works to support equality initiatives in the industry.

The Wolves Summit will also host The Great Pitch startup competition, during which the best projects will be selected. GTR Ventures is offering the winning fintech an US\$10k opportunity comprising complimentary passes and a profiling opportunities at the GTR Ventures 3rd Tradetech Showcase Competition which will be held at the prestigious Marina Bay Sands hotel in Singapore from 8th to 9th September. This edition of The Great Pitch will also be unique, because for the first time Jury will grant additional awards besides GPC. The winners of The Great Pitch Contest will directly enter the semi-finals of the 12th Innovation World Cup®, and will have a chance to present their solutions at the top international tech events.

Because of the advanced matchmaking tool available before and during the Wolves Summit conference, participants will be able to plan and attend over 4.500 well-matched networking meetings.

The eleventh edition is co-organized by the Capital City of Warsaw, the strategic partner of the conference is the Embassy of the United Kingdom of Great Britain in Warsaw and GTR Ventures. The substantive partner is Navispace.
