

9 Simple Steps for a New Countertop (Remotely!)

Whether you have a tight schedule or there's a global pandemic, being able to have a design consultation remotely can be really convenient! But what exactly happens during a video consult? Check out the simple infographic to learn more.

1

SCHEDULE A ZOOM MEETING

First things first, we'll find a time that works for you and for us to set up a virtual meeting using a tool like Zoom OR we can keep it simple and schedule a phone call.

2

AT OUR FIRST MEETING: TALK ABOUT THE PROJECT OVERVIEW

During our initial meeting, we'll discuss the scope of the project, including which room(s), timeline, style, colors, materials, edges, and more. This meeting is all about the fun, creative parts of the project!

3

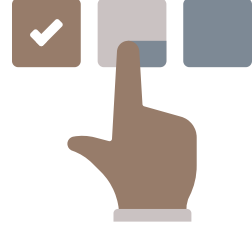

SCHEDULE A SECOND ZOOM MEETING

At the end of our project overview meeting, we'll schedule our next meeting (which is best to do by video). In the meantime, Alpha will take your project to the drawing board and start working on it!

4

AT OUR SECOND MEETING: SHARE PROJECT QUOTES FOR 2 TO 3 OPTIONS

By this meeting, Alpha will have two or three designs created and quoted to review together. We'll look at the designs and quotes and answer any questions you may have.

5

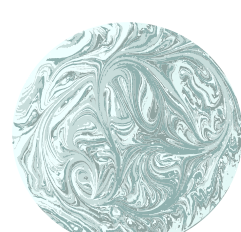

HOMEOWNER OR DESIGNER TAKE SOME TIME TO DECIDE WHICH OPTION THEY LIKE

Choosing the right design takes some thoughtful consideration, so we encourage homeowners and designers to take some time to review the options and decide which will be the perfect fit. When you've decided, give us a call and let us know!

6

HOMEOWNER OR DESIGNER CHOOSE A SLAB THEY LOVE

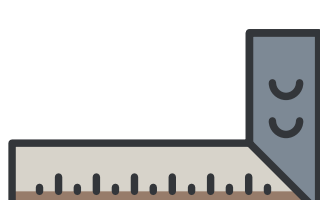

Choosing your slab is fun and easy to do remotely. We can email or text images to you, or we can take you through the yard with us by video to show you a selection of stone slabs.

ONCE THE HOMEOWNER IS READY TO BEGIN THE WORK:

7

ALPHA TEMPLATES THE SPACE

Templating needs to be done by Alpha experts in person, so we'll schedule a time to visit your space and take measurements. This ensures that your stone will be a perfect fit.

8

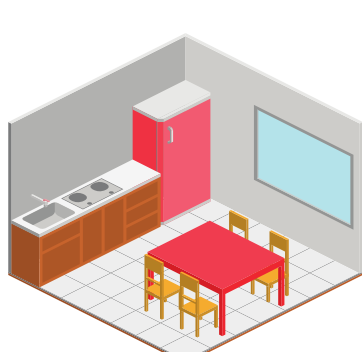

SCHEDULE THE INSTALLATION DATE

When your slab is ready, we can schedule an installation appointment. Give us a call and let's talk calendars!

9

COUNTERTOP INSTALL

The final step is to install your beautiful new countertops. Then, it's time for you to start enjoying your gorgeous new space!
