

A modern multi branch retail management solution, built on the latest technology

K8 Retailer, a comprehensive integrated retail ERP solution, is designed for the modern day multi branch retailer. K8 Retailer enables retail operations, warehouse and distribution management and financials to work coherently as one integral solution for your business.

Our solution combines touchscreen friendly point of sale, stock management with colour and size matrix, rise per size, vouchers, gift cards and promotions with powerful back end modules including sales order processing, purchasing, business forecasting, business intelligence, CRM, eCommerce, warehouse management and financial management.

Built on the latest version of Oracle and SQL technologies and written in .NET, K8 Retailer delivers all the requirements of the modern-day

retailer, coupled with robust performance, capable of managing the requirements of a complex multi branch business.

K8 Retailer is a Microsoft-based application that fully supports all supported Windows platforms.
