

The comprehensive multi-branch POS and retail management solution

Retailer, an intelligent multi-branch Retail Management solution, featuring a touch screen friendly point-of-sale interface, colour and size matrix with rise per size for apparel and footwear, complete with instant automated updates and offline capability.

Built on the latest SQL database and .NET platform, our software offers robust performance, high-security functionality, retail intelligence and cloud compatibility. Offering outright and Software as a Service (SaaS) options.

Retailer combines point-of-sale functionality with inventory management, promotions, distribution and reporting.

Retailer is a Microsoft-based application that fully supports all Windows platforms.

Retailer is designed for the modern-day retailer who wants to grow and streamline their business processes and improve business management by ensuring retail operations work seamlessly.
