## TASTE/SCENT

**PINE   GAS   EARTHY**

## DESCRIPTION

Critical Kush from Barney's Farm is a mostly indica strain that blends together two famed cannabis staples, Critical Mass and OG Kush. Aromatic notes of earthiness and spice usher in a calming sensation that relaxes the mind and body. This strain is a perfect nighttime medication for pain, stress, insomnia, and muscle spasms.

## PARENT #1: Critical Mass

**Indica-Dominant Hybrid**

**Breeder:** Mr. Nice

**Lineage:** Afghani x Skunk #1

Critical Mass is an Indica-dominant strain named for the extremely large buds that have been known to snap their own branches in half. The combination of Kush and Cola flavors deliver a potent body-numbing buzz that can make users feel lazy and sedated. Most users report this strain brings a clearing of the mind, leaving them feeling creative and focused, yet lethargic.

## PARENT #2: OG Kush

**Indica-Dominant Hybrid**

**Breeder:** Unknown/Disputed

**Lineage:** Chemdog

OG Kush makes up the genetic backbone of West Coast cannabis varieties, but in spite of its ubiquity, its genetic origins remain a mystery. This famed strain arrived in Los Angeles in 1995 after being transplanted coast-to-coast from Florida by its original propagators.
