ABOUT ME

Hybrid

Breeder: Archive Seed bank

TASTE/SCENT

EARTHY SWEET PUNGENT SKUNKY

DESCRIPTION

Do-Si-Dos is an indica-dominant hybrid with qualities similar to its parent, GSC. With glittering trichomes, bright pistils, and lime green and lavender leaves, this strain is a feast for eyes. Its aroma is pungent, sweet, and earthy with slight floral funkiness. These classic OG aromas blend nicely with medical-grade body effects that lean toward the sedative side with the addition of Face Off OG genetics. Enjoy a stoney, in-your-face buzz off the start that melts down over the body, prettifying the consumer with relaxation that emanates outward.

PARENT #1: OG KUSH BREATH

Hybrid

Breeder: Unknown

Lineage: Girlscout Cookies x Unknown Strain

OG Kush Breath is a heavily sativa dominant cannabis flower. It hails from a lineage of mighty flowers by combining OG Kush and Durban Poison. Its aroma is light and floral with an earthy taste and slight hints of chocolate in its undertones. Its sativa dominance shines through with powerful head highs and tingly body effects.

PARENT #2: FACE/OFF OG BX1

Indica-Dominant Hybrid

Breeder: Archive Seed Bank

Lineage: Faceoff OG Kush x Faceoff OG Kush x Unknown

In the late 1990s in California Archive Seeds was gifted with the seeds of an exceptional OG Kush phenotype, boasting a 70/30 indica-dominant ratio. Its crushing full-body effects make this strain a great choice for consumers attending to physical discomfort or for relaxing on a lazy weekend.
