

How to add SavvyCard to an Android

1

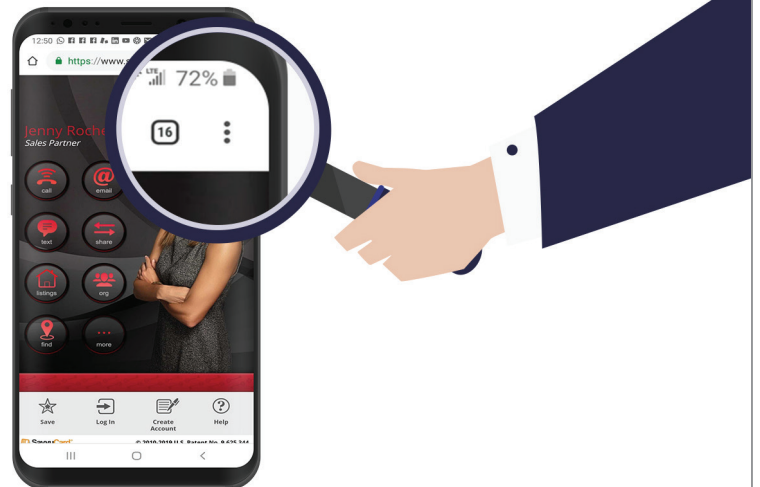

Tap the link received via text. **Your SavvyCard will populate**

2

Click the **Menu** button which, depending on the browser, it could be located at the top right of the URL or on the bottom phone banner.

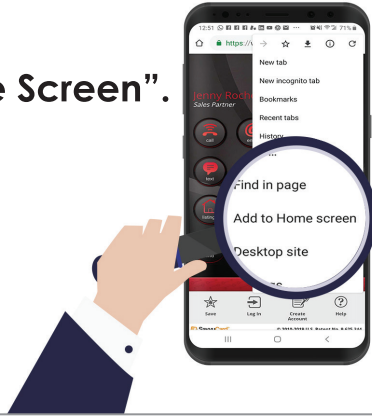

If located at the top right of the URL, you'll see three vertical dots as the menu button. If located on the bottom phone banner, you'll see three horizontal lines.

How to add SavvyCard to an Android

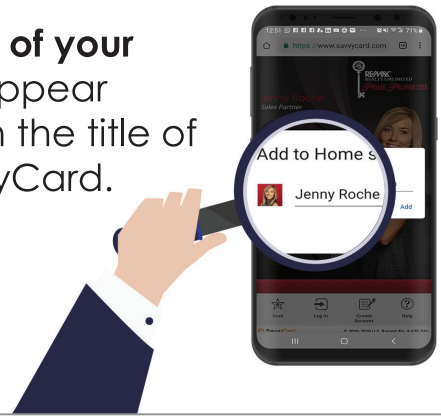

3

Select
"Add to Home Screen".

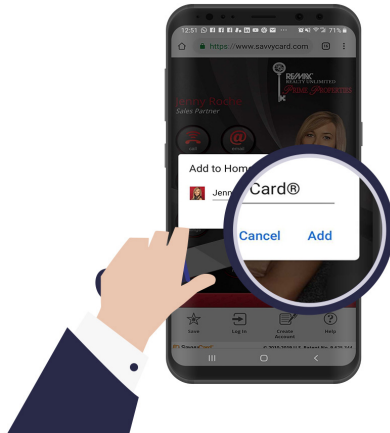

4

A preview of your
icon will appear
along with the title of
your SavvyCard.

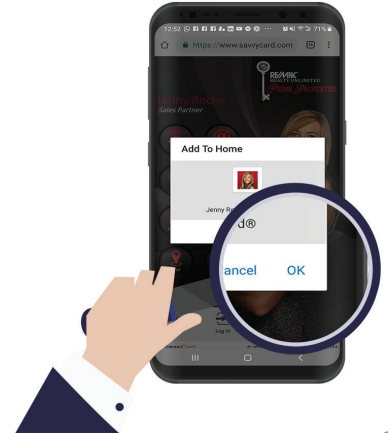

5

Select **Add**.

6

Choose **"OK"**.

7

The icon is now saved to the
home screen of your **Android**
phone.
