Welcome to ATAG *One*, your thermostat.

Keep the Network security key or Wi-Fi code handy.
Do not give the code to third parties.
You must have your smart phone or tablet connected to your wireless network.

1. Download *One*-app on your smart phone and/or tablet. Go to the Playstore/Appstore and search for: atag one.

2. ATAG *One* thermostat.

At first start:

Select your language and follow the steps until CON-FIGURE and choose: **YES***.

(When *One* is already connected: Go to SETTINGS and select RECONFIGURE: YES).

(From SW/R43: Go to SETTINGS/CONFIGURATION/WIFI-RECONFIGURATION)

*When choosing NO follow the steps for adjusting time and date. The *One* will not be connected to the Wi-Fi network and will function offline as a room controller.

3. Start *One*-app.

Press Wi-Fi configuration.

4. Go to SETTINGS/Wi-Fi of your smart phone or tablet. Select ATAG One xxxxxxxx and wait until the blue check mark is shown.

5. Return to the One-app.

Press CONTINUE and follow the steps on One-app and One thermostat.

The setup is now COMPLETED!

To use all features and services an account has to be created.

6. Create from the login screen from One app an account: Press REGISTER USER

Take care your smart phone or tablet is connected to the same wireless network as your One. Check this at SETTINGS/Wi-Fi of your smart phone or tablet.

7. Follow all steps on One-app.

8. Open your e-mail (check your spam box, if necessary) and press the activation text.

9. Log in with your email address and the password you created previously

Press LOGIN

Press SEARCH

Select your One **XXXXX**

Press CONNECT

Check for a successful connection: Compare the displayed time of the One thermostat with the time on your smart phone or tablet. This must be equal.

You can now also use your account to login at: portal.atag-one.com
