

Mobilize Your Workforce With Technology

Plan and prepare your company to operate exclusively remote

Solutions For a Remote Workforce

We are all seeing first-hand how communication and collaboration technologies are being employed to deliver critical information around the globe effectively. Organizations are having to adapt to the needs of a mobile workforce quickly, and now, more than ever before, the value of adapting to this reality is apparent.

To ensure employees can stay productive while away from the office, they need the appropriate tools, devices, and training to get the job done. You need a partner that can help guide you with all of these remote workforce needs. With a trusted and experienced partner like HBS, your team won't miss a beat.

Mobility Expertise

Our remote workforce solutions take a holistic approach by considering all aspects of successful implementation as it applies to your specific workforce requirements:

- Collaboration Tools and Software
- Mobile Devices
- Infrastructure Requirements
- Networking & Connectivity
- Cyber Security Policies, Programs, and Protection

As a testament to the successful implementation of mobility and collaboration technology, HBS has endorsed a Virtual Culture and is fully functional while operating under Stay at Home and Social Distancing directives.

Increased Productivity

Research points to major increases in productivity for people who work at home.

Reduced Turnover

Employees are looking for flexible work options. Recent reports suggest higher job satisfaction and retention when given the option to work from home.

Increased Wellness

Keep your employees distant from seasonal and unique viruses. You'll see a decrease in absences overtime.
