COVID-19 MICRO AND SMALL BUSINESS RELIEF MEASURES

Technical Assistance Programme

The Technical Assistance Programme will involve the use of paid qualified accountants and other professionals to provide technical guidance and coaching to micro and small businesses to help them navigate this difficult period and keep their financial obligations to financial institutions.

This programme is directed particularly at recovery from COVID-19.

Technical Assistance will initially be provided for one year and the programme of assistance will include, among other things:

- Document preparation to access financing, grants or other stimulus products;
- Preparation of business plans, strategic plans;
- Business Model Design/Innovation;
- Business Forecasting;
- Business Impact Analysis; and
- Human Resource Services

The assistance will take the form of one-on-one consultation and coaching sessions with clients.

The Technical Assistance Programme will be funded by the Ministry of Commerce, Planning and Infrastructure.
