

Chris Linden
COO

Chris is responsible for day-to-day leadership and general management of ActiveVideo. He oversees all worldwide customer lifecycle activity - including sales, professional services, field operations, and ongoing customer support - required to deliver ActiveVideo products at scale.

Throughout his career, Chris has grown business values by building collaborative organizations that solve critical integration challenges, implement key technology and exceed customer expectations. Prior to joining ActiveVideo, Chris was vice president and general manager of Unity Network Services, an iPass business unit, for which he grew revenue 33 percent and re-engineered the business from negative EBITDA to scalable profitability in less than 18 months.

Previously, he developed and executed the global services delivery model for GoRemote, an iPass acquisition, and spearheaded worldwide professional services and sales engineering for Ensim, a provider of cloud-based automation services for service providers. Chris began his career with McKesson, where his product development for mission-critical applications helped pave the way for electronic medical records.

Chris holds a B.S. in environmental science from UCLA and has an advanced program management certification from Stanford University.
