

We understand how important it is to stay connected, especially during this time. We are excited to offer social distancing visit opportunities for families/friends to connect with their loved ones. In order to safeguard and protect our residents/patients, we have set forth the following guidelines for each community.

## Meadow, Miralea and Village Active Lifestyle Communities

- May have visitors on campus for social-distancing visits, **any day from 8:30 am to 5 pm. Visitors must exit campus before 5 pm.**
- Only two visitors are allowed per visit.
- Pets are allowed, but must be on a leash and must also distance at least 6 feet from the resident.
- Visits must occur outside of the building. Visitors are prohibited from entering campus buildings, foyers and interior courtyards.
- Residents and visitors must wear masks.
- Avoid socializing in groups that do not readily allow for appropriate 6-foot physical distancing. Proper distancing is not always possible for both residents and visitors to visit together on first floor patios.
- All visitors are required to complete a Wellness and Travel screening upon entering the campus.
- Try to coordinate deliveries at the same time as visits to help limit traffic onto the campus.
- Virtual Visits can be scheduled by contacting:
