

HARMONIZE HITS THE HIGH NOTES WITH:

Increased student participation

With an online experience that is both fun and functional, learners stay engaged and are inspired to think and interact in imaginative ways.

Personalized learning

Students can share information, collaborate and communicate in their own unique way — expanding the learning potential of each and every student.

Drag-and-drop simplicity

Structured posting allows teachers and students to focus on their content without stressing over layout.

Time-saving tools to enhance teaching success

Educators can spend less time on administrative tasks and grading and more time inspiring discussions and helping students succeed.

Image and video annotation

Teachers can critique and markup student images and videos to provide insightful, timely feedback. Additionally, Harmonize enables students to annotate their own images and videos.

Mobile-friendly design

Students and instructors can be “in class” anytime, anywhere and follow new activity or join a discussion while on the go.

Multiple file upload

Users can have a richer discussion by adding text, media, embedded web links, code snippets or recorded audio or video. Plus, there are no storage limitations!

Student progress tracker

Activity reports show a comprehensive view of student participation and can let teachers know when someone may need a little extra encouragement.

Auto save

All work is saved in the background so users can close a browser or change devices without losing any of their time or progress. This function allows students to seamlessly transition between devices, start a post on their laptop and finish their post on their phone, tablet or desktop — and vice versa.

Reasons to Harmonize

When teachers and students unite in a learning experience, the opportunities are endless. Harmonize provides a collaborative space for dynamic discussion, creative thinking and next-level education. Keeping students engaged in an online course can be challenging, so Harmonize makes it simple to connect with instructors and peers in new and exciting ways.
