Our Colocation Infrastructure Benefits

Colocation Services w/ Bandwidth Analytics

XcellHost helps you to understand bandwidth and to analyze data transfer by application, user, protocol and location.

Remote Power Management

We provide our colocation clients with remote power reboot interfaces at no additional cost.

Fairly Priced Managed Colocation

Our onsite remote hands are very affordable.

Service Customizations

We go beyond traditional colocation concept to offer you a number of options & customizations.

Stability & Commitment

We help our customers to optimize IT processes and reduce their operational costs.
