#### ELECTRIC OPERATION

Energy efficiency and easy installation are a perfect pairing for your foodservice operation.

#### INDIVIDUAL TEMP. CONTROL

Individual thermostatic controls for top and bottom heat.

# Hot & Fresh To-Go.

Your customers want delicious grab and go foods—and they want them now! Luckily, BKI has an answer for you. The BKI® SM series of countertop food warmers features ceramic infrared top heat combined with base bottom heat to keep food fresh and hot for extended times. With the individual thermostatic controls for top and bottom heat\*, you can dial in the perfect holding temperatures for sandwiches and other impulse-buy hot food items.

The pass-through design allows for the kitchen to load fresh food easily from the back while customers pull from the front of the warmer. The slanted shelves mean that new items keep moving to the front of the unit. Horizontal shelf options allow you to serve foods that are best kept flat.

#### FEATURES AT A GLANCE

- Choose from 24" to 75" widths
- Top ceramic infrared heating element
- Horizontal or slanted shelves with stainless steel construction
- Single or double tiers
- Pass-through for easy loading of product
- Illuminated chamber
- Assembled in USA
- Individual thermostatic control for top and bottom heat

The SM series of warmers come in a range of widths and tiers with both slanted and horizontal shelf options to meet your particular needs.

Truthfully, we have everything and anything you need. So. Are you ready to give your customers exactly what they want—when they want it?

*\* These controls may be positioned on either the left or right side of the warmer. Please specify when ordering*
