Section 6 – Accidental Release Measures

Steps To Be Taken If Material Is Released Or Spilled: Soak up with inert absorbent material and dispose of as hazardous waste.

Section 7 - Handling And Storage

Handling: Keep container tightly closed. Take precautionary measures against static discharges. In the event of fire, cool the endangered containers with water. Vapors are heavier than air and can form an explosive mixture with air. Use explosion-proof equipment only. Containers of this material may be hazardous when emptied. Handle in accordance with good industrial hygiene and safety practice.

Storage: Harmful - Store away from foodstuffs. Keep away from sources of ignition. No smoking.

Section 8 - Exposure Controls / Personal Protection

Engineering Controls: Local ventilation of emission sources may be necessary to maintain ambient concentrations below recommended exposure limits.

Respiratory Protection: The selection of personal protection equipment varies depending upon conditions of use. In case of insufficient ventilation wear suitable respiratory equipment. When workers are facing concentrations above the exposure limit they must wear NIOSH approved respirators.

Skin Protection: Impervious gloves.

Eye Protection: Safety glasses with side-shields or tightly fitted goggles.

Other protective equipment: Impervious clothing.

Hygienic Practices: Remove and wash contaminated clothing before re-use.
