November 2, 2010

To: Real Estate Managers & Owners

David Schwartz of DS Magic Tech LLC has been providing services to our buildings.

He has a service which reduces water consumption through special devices resulting in reduced water bills and energy savings due to the need to heat fewer gallons of water.

We have given him several buildings in which to install his devices and will continue to give him additional buildings.

We have seen positive results from the use of his devices.

If you have any questions please feel free to give me a call.

Very truly yours,

Mark Engel
President
