EVENTS**

Planning for the time when a loved one needs more help

As we age, there may come a time when you, or a loved one, needs a little more help.

Danielle Robertson, DR Care Solutions

Danielle has more than 30 years' experience in the aged, disability and home care sector. She has helped hundreds of families by assisting with the task of assessing the level of care needed, then selecting the most appropriate care providers, often at very short notice. Danielle will give an overview of how she helps find appropriate in home care for her clients and illustrates this with some case studies.

Cameron Kirby, CEO Mark Moran Group

Mark Moran Group are leaders in the creation of world-class continuing life and care environments. Cameron will explain the difference between an Independent Living Unit (ILU) and a Residential Aged Care facility, and the type of resident that chooses each option. In addition, he will outline recent developments in residential aged care, dispel some rumours and hopefully increase your knowledge of this important and growing part of the aged care industry.

Melinda Measday, Director HLB Mann Judd

The Aged Care industry is pretty bewildering to the uninitiated. Aged Care accredited adviser, Melinda Measday, will take you through what you need to consider when planning for the costs associated with both home care and residential care.

We also have two highly regarded representatives from the Aged Care Industry who will provide practical information about how to find appropriate home care, and outline options for residential care for when you, or your loved one, needs extra help.
