# Switch

Travelling a Borderless Grid

# **BPC's SmartVista Switch helps you stay ahead in the fast-moving payments landscape**

In today's payments industry, the landscape is constantly evolving, with both transaction volumes and transaction sources/destinations growing at a rapid rate. And with that growth comes pressure for switches to keep up.

Introducing a switch solution that lets issuers, acquirers, and processors handle transactions seamlessly and speedily, delivering impeccable service to their customer.

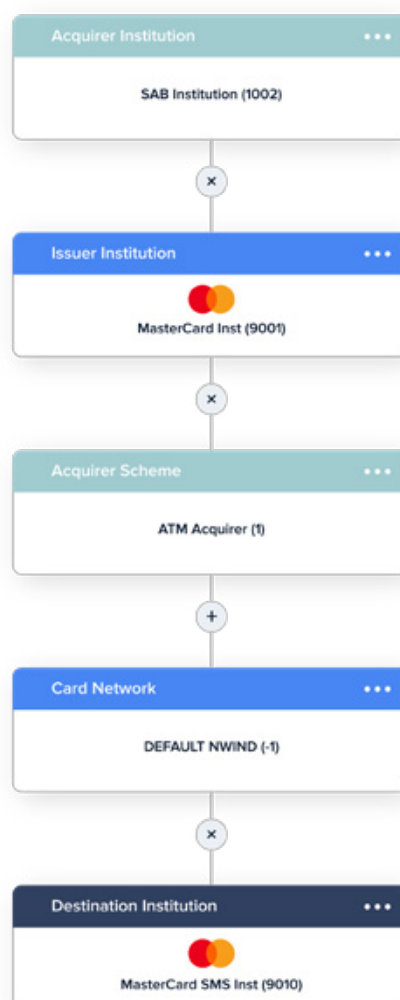

# High-performing, reliable, scalable

SmartVista Switch makes it easy to manage over 2,000 transactions per second, and has in fact been benchmarked in excess of 6,000 TPS. In terms of reliability, the stats are impressive – with 99.999% service uptime plus active-active and load-balancing support.

## How it works...

- SmartVista Switch can be deployed to either replace an existing switch or work in parallel with it.
- It manages a full range of transaction types including purchases, ATM cash withdrawals, and fund transfers, as well as non-financial transactions like balance inquiries and statement requests.
- Transaction routing configuration capabilities are based on routing tables and, if required, a BPM (Business Processes Management) engine for complex transactions processing.
- Customers can connect external devices like EFT/POS terminals, ATMs, or Kiosks.
- Issuers' and acquirers' online fees and charges are supported flexibly based on transactions, cycles, and events.

# Key benefits of SmartVista Switch

- › EMV and contactless support
- › 3D Secure support
- › Tokenization capabilities
- › Hosted Card Emulation support
- › MasterCard MDES & Visa
- › VTS integrated
- › Support for Fuel/Fleet payments
- › EPAS interface support
- › SEPA compliant
- › Least cost routing
- › User friendly web interface (GUI)
- › Extensive report capabilities
- › Comprehensive authentication support

## Financial institutions...

Get a scalable system that grows as their business does

Offer continuous customer service

Achieve fast time to market

## Customers...

Benefit from a user-friendly dashboard
