PUM and Tools Updates on Demand

Tailored to meet your Selective Adoption strategy. Sit back and relax and wait for a updated, tested and validated system to be delivered to you.

Accelerate PeopleSoft Modernization

PUM Workshops with New Feature Analysis, Customization Impact reports, De-Customization opportunities – all packaged and delivered for your consumption. You pick and PeopleSoft SAaaS will enable and deploy.

Do the impossible - Innovate & Automate

Optimize Workflow, Deliver Mobile and Chabot Capabilities, Build Reporting Dashboards – in short, convert business users into your cheerleaders. PeopleSoft SAaaS natively incorporates Test Automation, Workflow Automation, Push Notification and many more innovative ideas to help you shine.
