

Online Management for Auditory Processing Disorders

Ingrid Gielow, Ph.D. Diana Faria, M.Sc.

Relevant relationship

Ingrid Gielow

CTS Informática, Brazil

Financial - scientific coordinator of the Ear Mix software, developed in 2008, still receives royalty payments

Communicar, Brazil

Nonfinancial — project collaborator of www.afinandoocerebro.com.br since 2012

Diana Faria

Communicar, Brazil

Financial – project coordinator

Nonfinancial - project coordinator of

www.afinandoocerebro.com.br, receiving no financial support

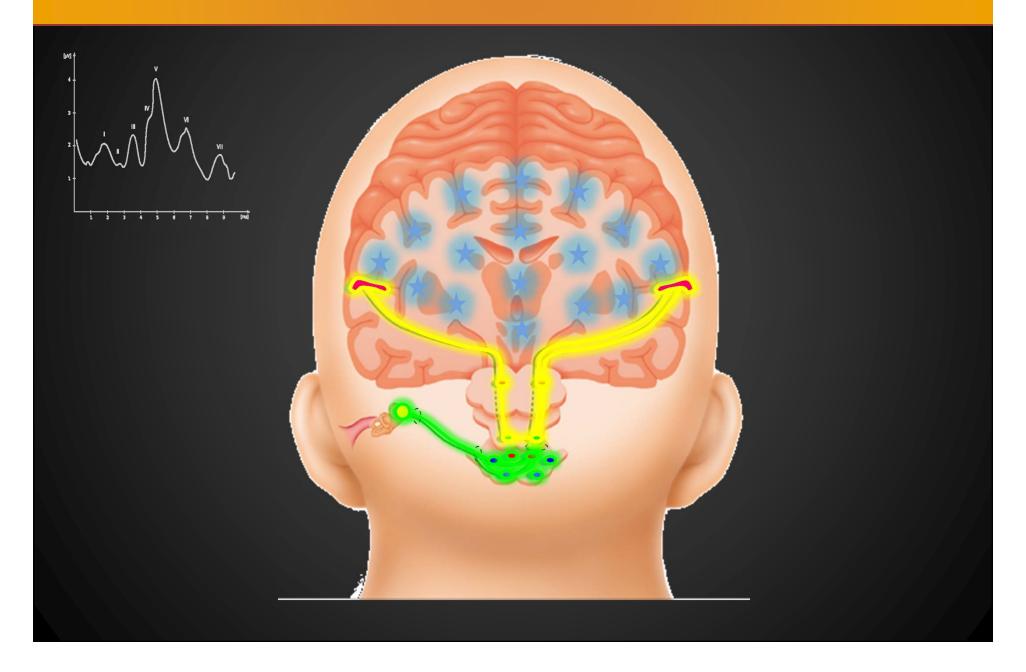

Disclosure statement

"Afinando o Cérebro" and "Tuning the brain" are private initiatives and we did not receive any financial support

But

to develop and offer the strategies online, there is an operational cost with web designers, programmers and web hosting that is repassed to the final consumer, with no profits aims

Auditory Processing

Auditory Processing Intervention

Auditory training

Methalinguistic strategies

Abilities

Methacognitive strategies

Auditory Training

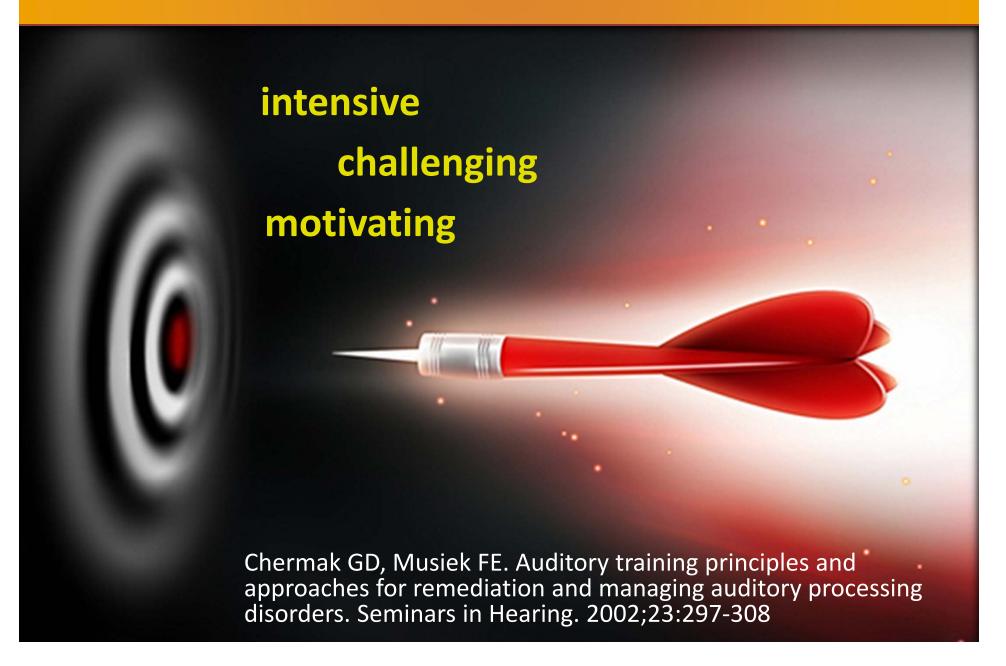

Concepts and Principles

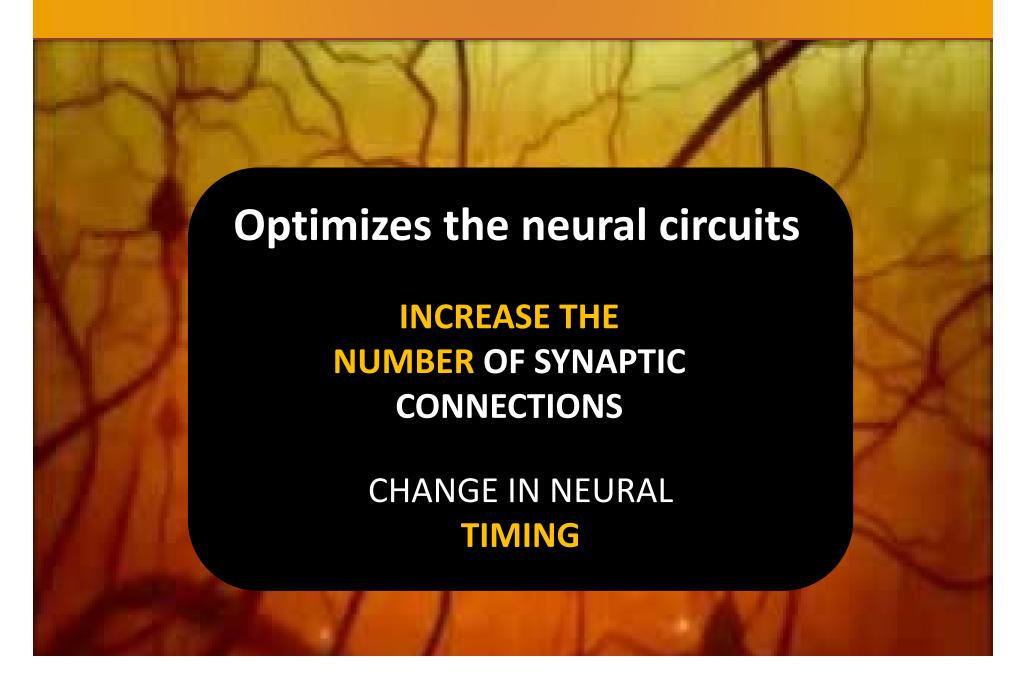

intensive experiences

improve the auditory abilities strengthen the processes and skills develop compensatory mechanisms in the brain.

Auditory Training

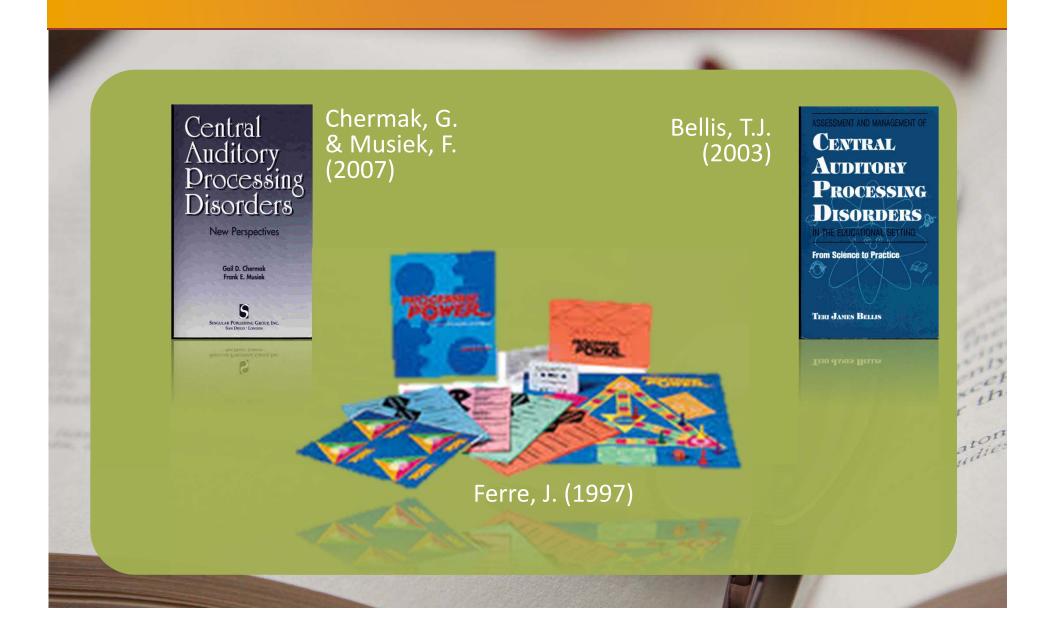

Auditory Training

Management of CAPD steps: auditory and language training reinforced by home stimulation

Theoretical support

Personalized

- Auditory skills
- Patient's interests, hobbies, context

Motivating

- Challenges
- Rewards
- Activates limbic system

How to create monotic and dichotic auditory strategies

Audacity®

free, open source, cross-platform software for recording and editing sounds (http://audacity.sourceforge.net/)

10 years ago...

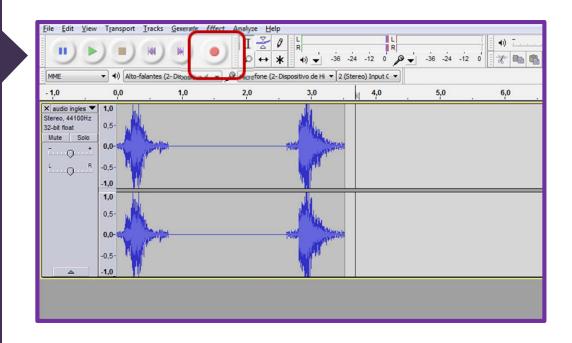

Ear Mix

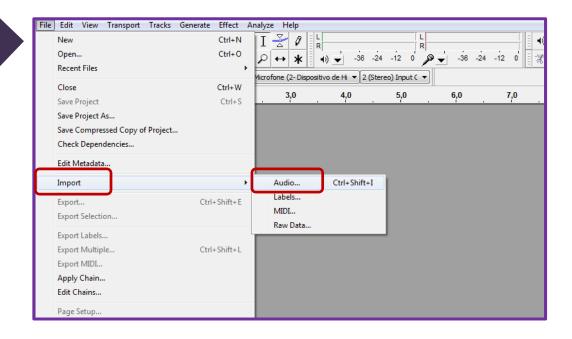

provided by CTS Informática (www.ctsinfomatica.com.br)

Record audio samples

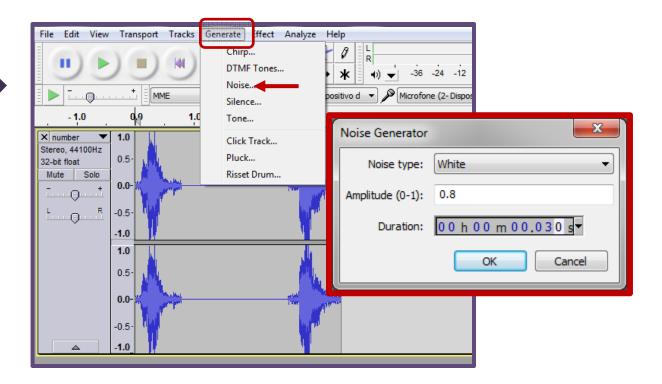

Import audio tracks from your files

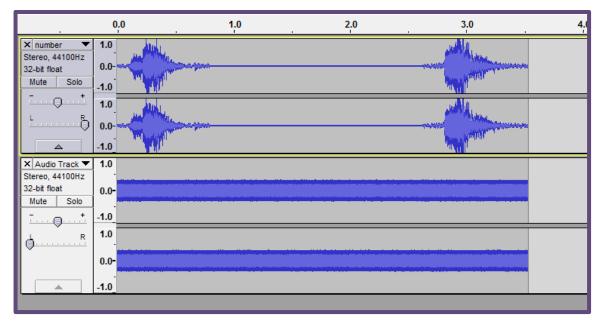

B Generate white noise

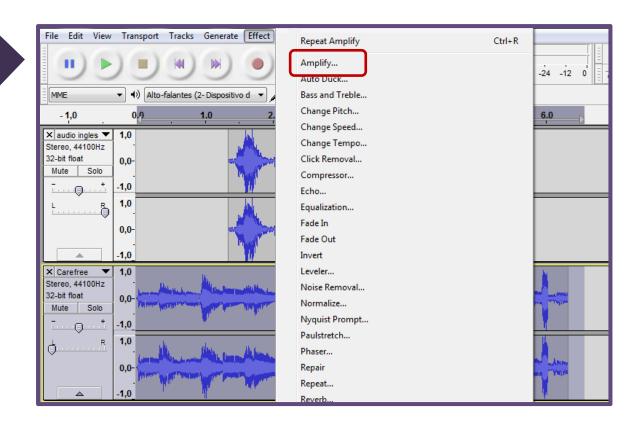

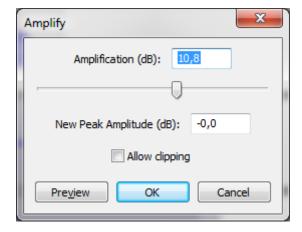

Insert Effects such as amplifying the intensity of a track

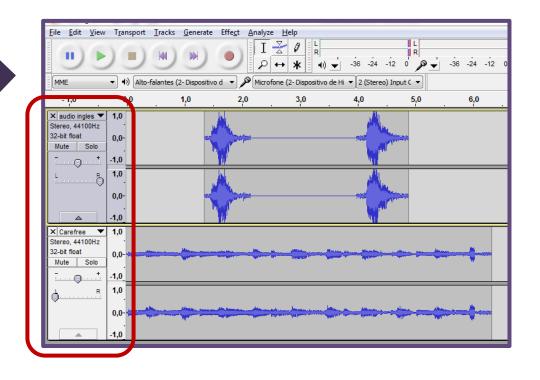

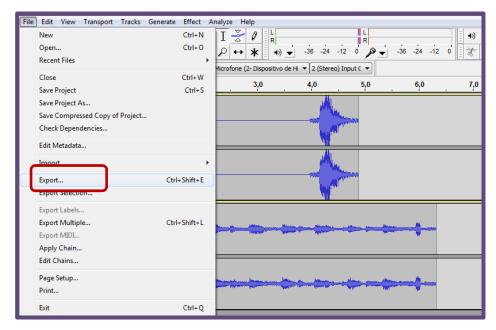

Select in which ear the audio will be presented

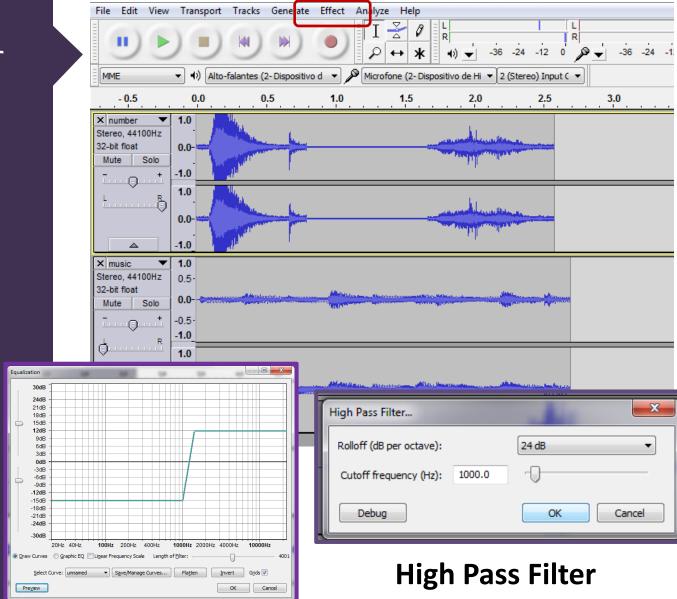

Save/Export or...

Insert other effects

Equalization

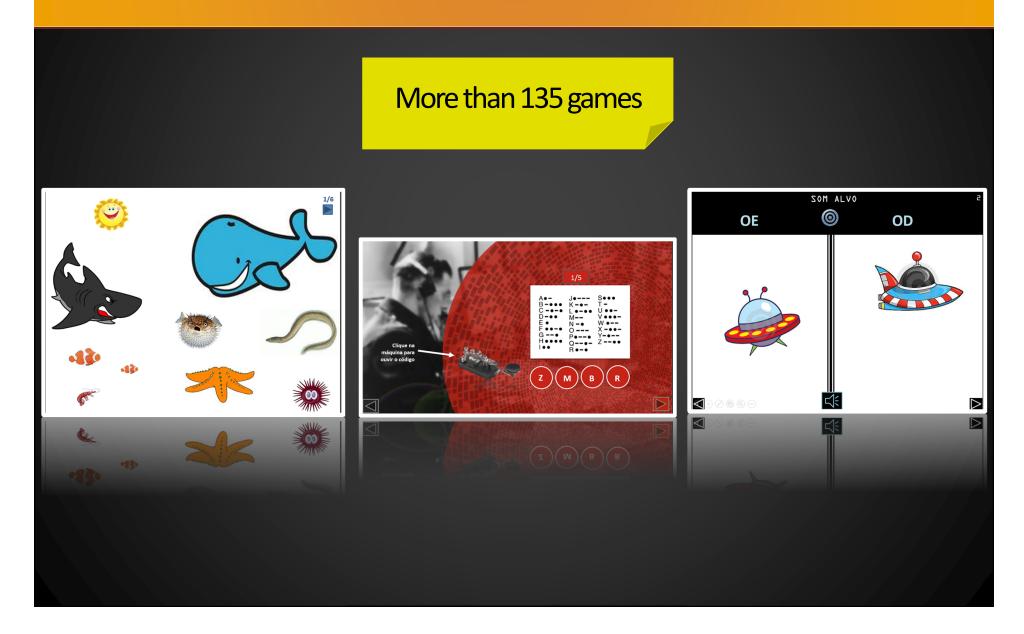

Personalized

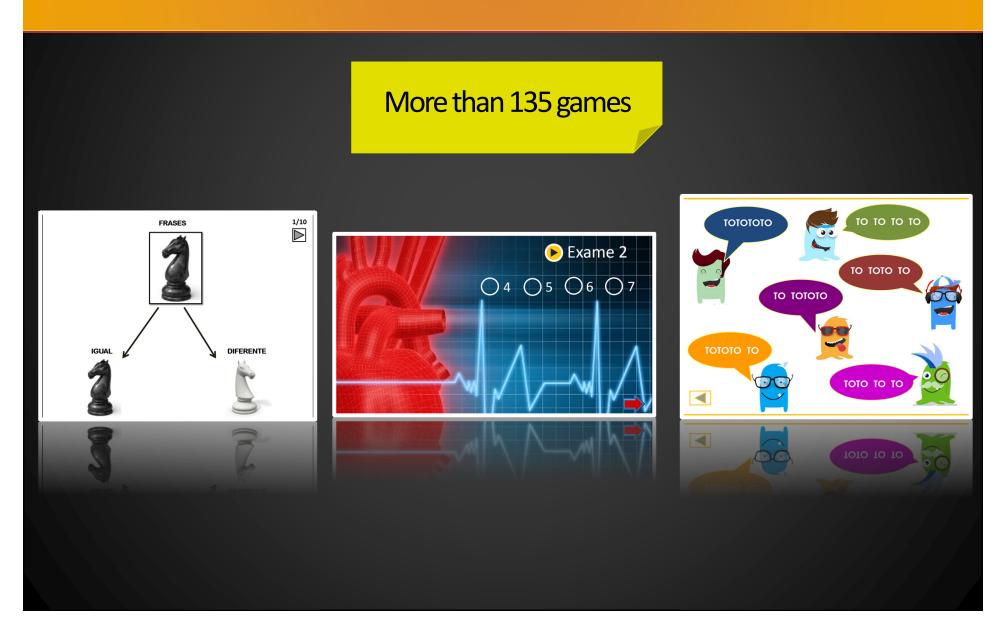

- Auditory skills
- Patient's interests, hobbies, context

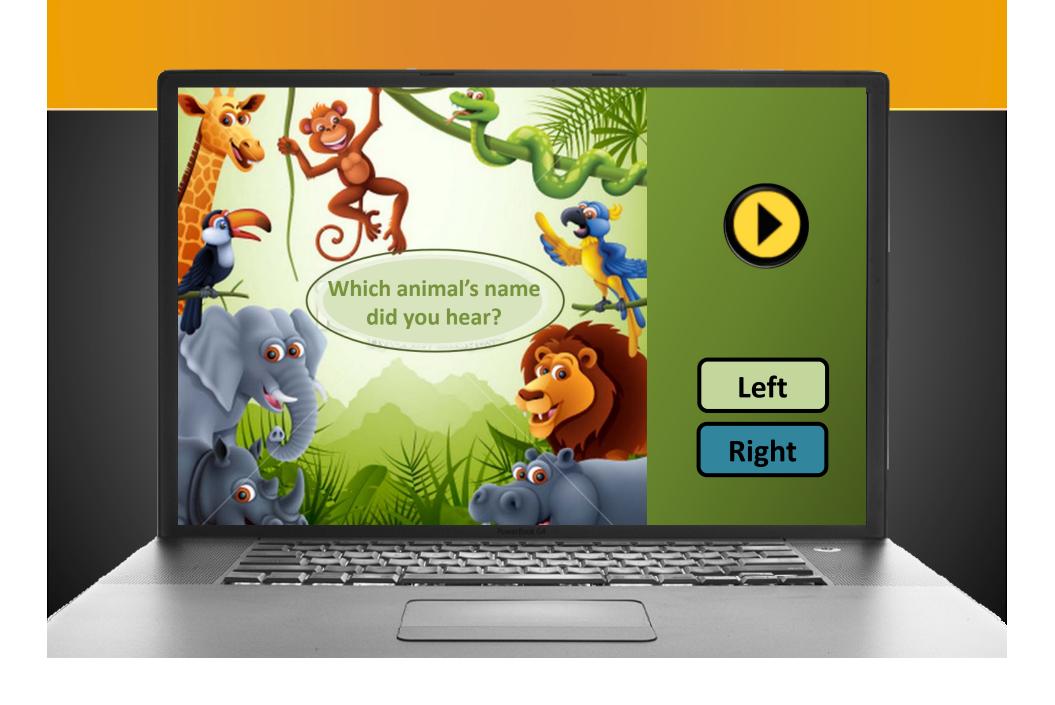

Motivating

- Challenges
- Rewards
- Activates limbic system

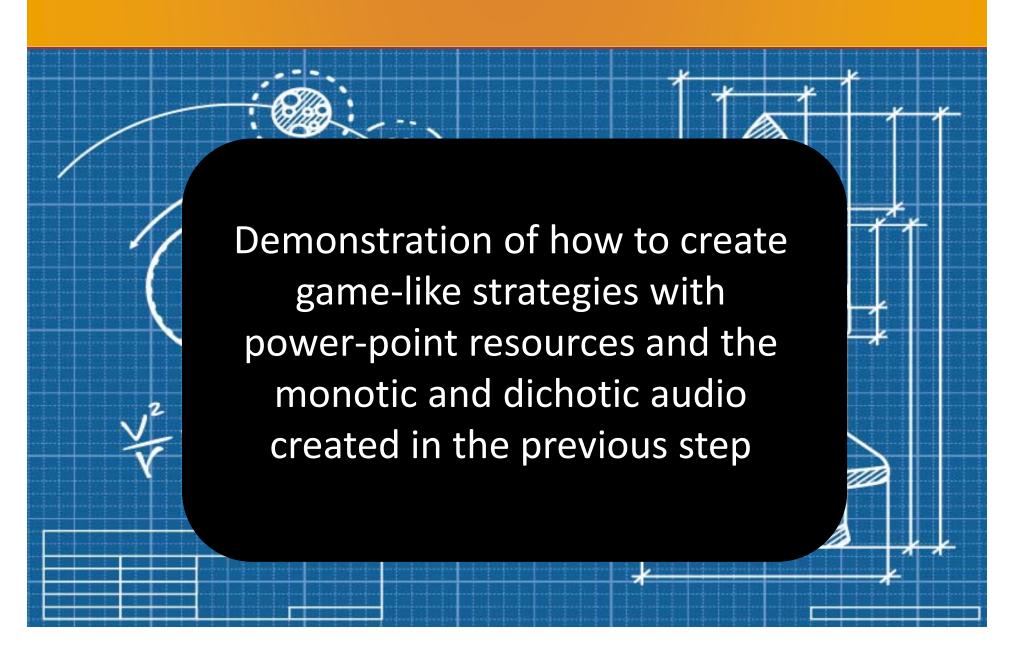

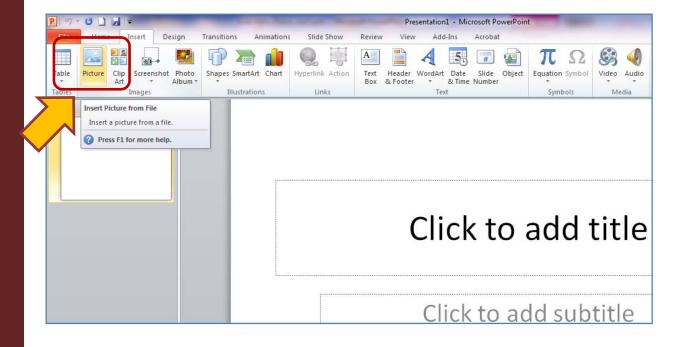

Step-by-step

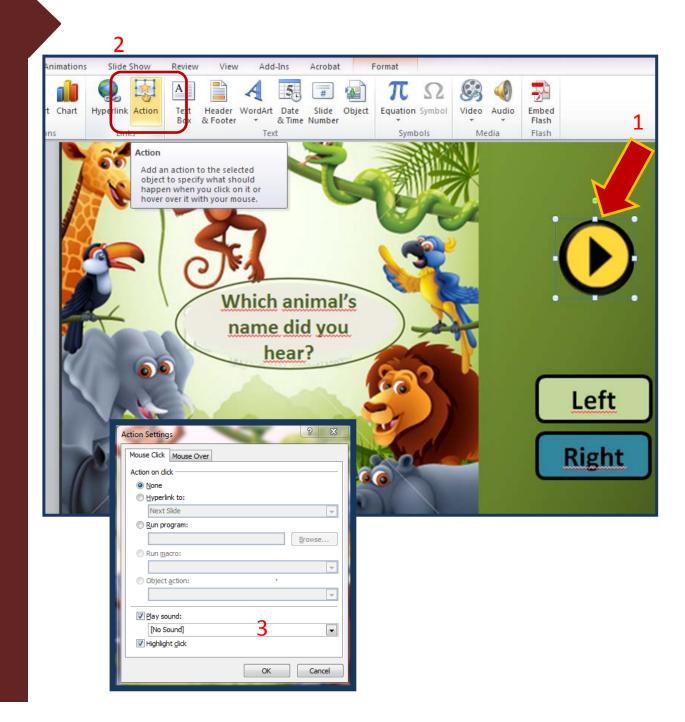

Insert
pictures
selected
from your
image bank

B Insert the audio recordings

Click on the image that will trigger the sound.
Click the ACTION
BUTTON and select
audios in your database that you want to insert.

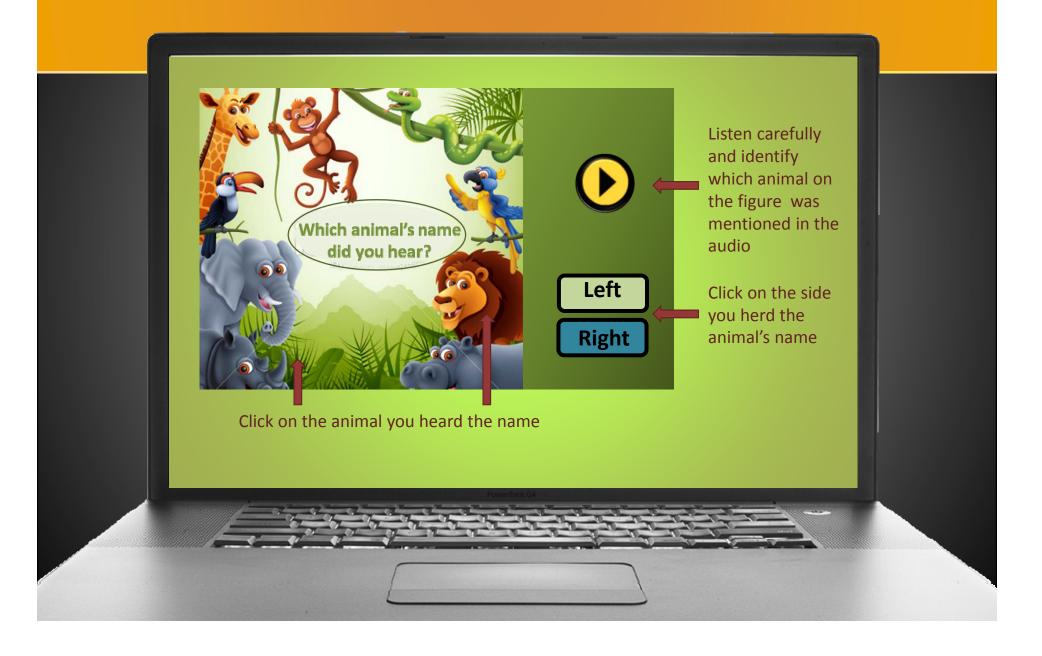

C Defining feedback for the answers

Select the answers and insert sounds related to right or wrong answers

Contextualizing the instructions

Personalized

- Auditory skills
- Patient's interests, hobbies, context

Motivating

- Activates limbic system
- Challenges
- Rewards

Games:

competition, goals, engagement

Online possibility to follow the patient's daily auditory training homework

www.afinanadoocerebro.com.br | www.tuningthebrain.com

 Allows the SLP to daily offer to the patient a specific stimulation for the development of the impaired hearing abilities

 Real-time monitoring of the results of each exercise

Tuning The Brain is a portal of activities in the form of games, with the purpose of encouraging, auditory and visual brain processing, attention, memory, language and learning.

The portal is ideal for people who want to maintain their active and ready to learn the brain, and for professionals working with the stimulation of the auditory, visual, reading and writing process, finding the portal tools to stimulate and monitor the progress of clients each skill.

Benefits of exercises Tuning the Brain: learn faster, improve memory, concentration and attention, process information faster and with greater clarity.

 Remote daily follow up of the strategies acessed by the patient

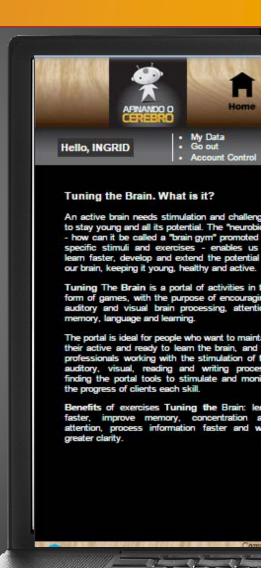

www.afinanadoocerebro.com.br | www.tuningthebrain.com

 Monitoring of the patient's progress in each and all activity

www.afinanadoocerebro.com.br | www.tuningthebrain.com

- Each month new activities are added
 - currently 36 games and 45 audios
- Over 5,000 users
- Currently 700 professionals registered and 2940 active patients

Auditory processing

how we realize the world

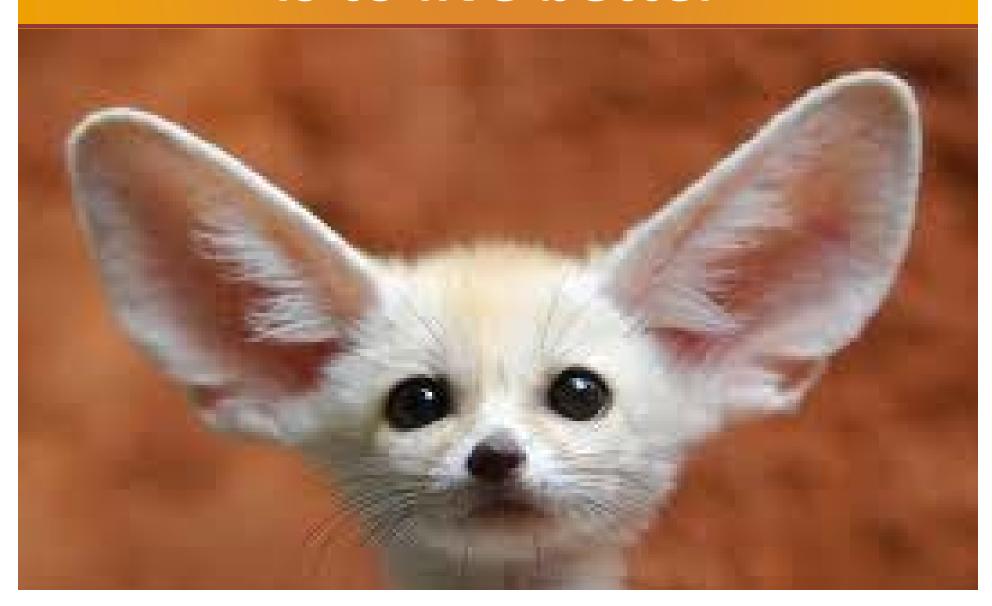

Developing listening skills means increase our possibilities of perception of the world

How we...

realize
understand
associate
interpret
learn
live

Better processing is to live better
