CR-93

Mineral & Soap Scum Renovator

“CR-93” contains a liquid pumice formulation designed to remove water spots caused by sprinkling systems and rain water. Also most effective on shower doors to remove soap scum and to renovate chrome that is corroded and stained with hard water, soap and other mineral deposits. This is not a daily or general cleaner.

Features and Benefits:

- Quickly Removes Hard Water Spots from Chrome Surfaces, Windows, Sinks
- Removes Lime, Iron and Calcium Deposits on Surfaces
- Very Fast Acting
- Used By Window Cleaning Professionals
- Removes atmospheric deposits
